

APPENDIX A: CPT CODES AND MANAGEMENT GUIDELINES

The Five Schedule has been updated to incorporate by reference the 2018 edition of the American Medical Association's *Physicians' Current Procedural Terminology, Fourth Edition (CPT-4)*, including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In the Five Schedule CPT-4 codes that contain explanatory language specific to Arizona are provided by A. Codes identify the act unique to Arizona and the reference listed in CPT-4 are procedurally an AE identifier and identified in the following format: AXXXX-YYY. Additional information regarding modifications adopted by reference is found in the Introduction of the Five Schedule.

The guidelines and management guidelines adopted by reference may be found in the *Physicians' Current Procedural Terminology, Fourth Edition (CPT-4) Book 1* published by the AMA, and is adopted in part below with permission. If the code that is modified may exist between an adopted portion of the CPT-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

6. **CLASSIFICATION OF PHYSICIAN ACTION AND MANAGEMENT UNDER SERVICES.** The E/M services is divided into broad categories such as office visit, hospital visit, and consultation. Most of the categories are further divided into more than subcategories of E/M services. For example, there are two subcategories of office visits: new patient and established patient; and there are two subcategories of hospital visit: initial and subsequent. The subcategories of E/M services are further classified into levels of E/M services that are identified by specific codes. This classification is important because the nature of work varies by type of service, phase of service, and the patient's status.

The basic format of the levels of E/M services is the same for most categories. First, a unique code number is found. Second, the phase and/or type of service is specified, eg, office consultation. Third, the content of the service is defined, eg, comprehensive history and comprehensive examination. Then "X levels of E/M Services" for details on the content of E/M services. Fourth, the nature of the performing professional usually associated with a given level is described. Fifth, the time typically required to provide the service is specified. A detailed discussion of time is provided below.

6. **DEFINITIONS OF COMMONLY USED TERMS.** Certain key words and phrases are used throughout the E/M section. The following definitions are included to reduce the potential for differing interpretations and to increase the consistency of reporting by physicians or differing specialties. E/M services may also be reported by other qualified health care professionals who are authorized to perform such services within the scope of their practice:

- **New and Established Patient:** Safety for the purposes of dispatching resources new and established patients, professional services are those that are first services rendered by physicians and other qualified health care professionals when they report evaluation and management services reported by a specific CPT code. A new patient is one who has not received any professional services from the physician/qualified health care
