**eWork and eBusiness in Architecture, Engineering and Construction** Ardeshir Mahdavi, Bob Martens, Raimar Scherer, 2014-08-21 In the last two decades the biannual ECPPM European Conference on Product and Process Modelling conference series has provided a unique platform for the presentation and discussion of the most recent advances with regard to the ICT Information and Communication Technology applications in the AEC FM Architecture Engineering Construction and *The role of evidence in developing effective educational inclusion* Joseph Mintz, Brahm Norwich, 2023-12-13 There has been considerable interest internationally in how research can be effectively translated to have an impact on practice in schools The application of evidence informed approaches in the field of education is contested and debated Such debates are intensified in relation to the issue of how best to include children with diverse learning needs

in the classroom The role of knowledge science and evidence in how we both conceptualize and best support children with special educational needs and other forms of diversity in the classroom remains an open question in terms of both policy and practice Although there is a considerable and growing body of literature on evidence informed practice in education in general there has been less attention paid to its implications for the domain of educational inclusion specifically However tensions between differing conceptualisations of difference and the role of categorisation present questions as yet not fully answered as to the ways in which evidence can and should articulate with practice in this specific domain For example issues of what is inclusion the place of norms and values that define inclusion how we conceptualize and think about difference across culture language and cognition are raised when we think about the application of evidence to practice in the area of educational inclusion
