Borwein,2013-06-29 Our intention in this collection is to provide largely through original writings an extended account of pi from the dawn of mathematical time to the present The story of pi reflects the most seminal the most serious and sometimes the most whimsical aspects of mathematics A surprising amount of the most important mathematics and a significant number of the most important mathematicians have contributed to its unfolding directly or otherwise Pi is one of the few mathematical concepts whose mention evokes a response of recognition and interest in those not concerned professionally with the subject It has been a part of human culture and the educated imagination for more than twenty five hundred years The computation of pi is virtually the only topic from the most ancient stratum of mathematics that is still of serious interest to modern mathematical research To pursue this topic as it developed throughout the millennia is to follow a thread through the history of mathematics that winds through geometry analysis and special functions numerical analysis algebra and number theory It offers a subject that provides mathematicians with examples of many current mathematical techniques as well as a palpable sense of their historical development Why a Source Book Few books serve wider potential audiences than does a source book To our knowledge there is at present no easy access to the bulk of the material we have collected **Educart NCERT Exemplar Class 12 Mathematics 2025 Problems Solutions (For 2025-26 Board Exam)** Educart,2025-04-16 Book Structure Theory Based Solutions High Order Thinking Questions Why is Educart NCERT Exemplar Good for Class 12 Boards Based on the NCERT Rationalised Syllabus covers only the most relevant and updated content Detailed Explanations for All NCERT Questions Step by step solutions for complete conceptual clarity Theory Smart Tricks Simplifies complex topics and enhances understanding Important Questions from Previous Years Papers DIKSHA Platform This provides exposure to commonly asked and high weightage questions Problem Solution Exemplar Offers detailed solutions to all NCERT Exemplar problems for effective practice Why choose this book The Educart NCERT Exemplar Class 12 Book is highly recommended by students for its structured approach to learning Whether you are aiming for board exams or competitive entrance tests this book is a reliable resource for success **An Elementary Treatise on the Differential and Integral Calculus** Edward Albert Bowser,1880 *An Elementary Treatise on the Differential and Integral Calculus* George Abbott Osborne,1891 **Elements of the Differential and Integral Calculus** William Anthony Granville, Percy Franklyn Smith,1911 This calculus book is based on the method of limits and is divided into two main parts differential calculus and integral calculus **An Elementary Treatise on the Differential and Integral Calculus, with Numerous**
