Eve Mining Guide:

EVE Online: ISK Strategy Guide Y. Michael Xu, 2012-10-19 The unofficial guide to becoming an ISK billionaire in EVE Online

An Insider's Guide to the Mining Sector Michael Coulson, 2008-08-26 In 2003 four mining shares rose over four times in price with one gaining ten times In just the first two months of 2004 26 mining shares increased more than 20% with five shares doubling Merrill Lynch's World Mining Trust is the UK's best performing fund over the past three years having risen by over 200 per cent But is the mining boom about to end Not according to this book by Michael Coulson Chairman of the Association of Mining Analysts Coulson argues that if anything we are still in the early stages of prolonged strength in mining stocks and despite what some commentators are saying the boom is far from over

FROM THE BACK COVER The prospect of instant riches gives the mining sector an obvious glamour And when the mining sector begins to run it can be an awesome sight and the excitement generated can be every bit as seductive and heady as that which enveloped markets during the internet boom But due to the counter cyclical nature of many mining stocks they can also offer a valuable refuge when stock markets turn down In this book Michael Coulson gives a masterly overview of the sector explains both the rewards and the pitfalls of investing in mining shares and argues convincingly that mining should once again form a core sector for all investors The book is for anyone interested in mining and particularly mining as an investment Whilst it contains material which will be useful to even experienced followers of the sector its main target is those who are interested in mining but perhaps not particularly familiar with the sector and would like to know more All the subjects are covered that are fundamental to acquiring sufficient knowledge about the mining sector to invest in it with confidence While the mining's

The Conquest of Space Vasil Teigens, Peter Skalfist, Daniel Mikelsten, Although its roots lie in early rocket technologies and the international tensions that followed World War II the space race began after the Soviet launch of Sputnik 1 on October 4 1957 The space race became an important part of the cultural and technological rivalry between the USSR and the United States during the Cold War Modern space exploration is reaching unbelievable areas Mars is the focal point of space exploration In the long term there are tentative plans for manned orbital and landing missions to the Moon and Mars establishing scientific outposts that will then give way to permanent and self sufficient settlements Additional exploration will potentially involve expeditions and settlements on other planets and their moons as well as the establishment of mining and fueling outposts particularly in the asteroid belt Physical exploration outside the solar system will be robotic in the foreseeable future
