4. Tachypnea
5. Decreased deep tendon reflexes - Answer ANS: 3., 5.

3., & 5. Correct: Hypercalcemia is a condition in which the calcium level in blood is above normal. Other causes include cancer, some medications, and taking too much of calcium and vitamin D supplements. Signs and symptoms of hypercalcemia range from nonexistent to severe. Lethargy and decreased deep tendon reflexes are two manifestations of hypercalcemia.

Remember - muscles are sedated.

2. Incorrect: A Negative Chvostek will be seen with hypercalcemia. It will be positive in hypocalcemia.

4. Incorrect: Hypercalcemia will result in a decreased, rather than increased respiratory rate.

Fennell,2021-09-21 This handbook presents a timely broad ranging and provocative overview of the essential nature of ecotourism The chapters will both advance the existing central themes of ecotourism and provide challenging and divergent observations that will thrust ecotourism into new areas of research policy and practice The volume is arranged around four key themes sustainability ethics and identity change conflict and consumption and environment and learning with a total of 28 chapters

The first section focuses on sustainability as a core ecotourism criterion with a primary focus on some of the macro sustainability issues that have an impact on ecotourism. Foremost among these topics is the linkage to the UN's Sustainable Development Goals which have relevance to ecotourism as one of the greenest or most responsible forms of tourism. The chapters in the second section provide a range of different topics that pull ecotourism research into new directions including a chapter on enriching indigenous ecotourism through culturally sensitive universalism. The third section includes chapters on topics ranging from persons with disabilities as a neglected body of research in ecotourism to ecotourism as a form of luxury consumption. The final section emphasises the link between ecotourism and learning about the natural world including a deeply theoretical chapter on rewilding Europe. With contributions from authors around the world, this handbook gives a global platform to local voices in both developed and emerging country contexts. The multidisciplinary and international Routledge Handbook of Ecotourism will be of great interest to researchers, students and practitioners working in tourism and sustainability.

The Condition of Democracy Jürgen Mackert, Hannah Wolf, Bryan S. Turner, 2021-07-12. Democracy and citizenship are conceptually and empirically contested. Against the backdrop of recent and current profound transformations in and of democratic societies, this volume presents and discusses acute contestations within and beyond national borders and boundaries. Democracy's crucial relationships between state and citizenry as well as amongst citizens are rearranged and re-ordered in various spheres and arenas impacting on core democratic principles such as accountability, legitimacy, participation and trust. This volume addresses these refigurations by bringing together empirical analyses and conceptual considerations regarding the access to and exclusion from citizenship rights in the face of migration, regulation and institutional transformation and the role of violence in maintaining or undermining social order. With its critical reflection on the consequences and repercussions of such processes for citizens' everyday lives and for the meaning of citizenship, altogether this book transgresses disciplinary boundaries and puts into dialogue the perspectives of political theory and sociology.
