Social TV Cory Barker,2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment Media Industries On March 15 2011 Donald Trump changed television forever The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real time reactions on Twitter generating more than 25 000 tweets and making the broadcast the most watched Roast in Comedy Central history The trumproast initiative personified the media and tech industries utopian vision for a multi screen and communal live TV experience In Social TV Multi Screen Content and Ephemeral Culture author Cory Barker reveals how the US television industry promised but failed to deliver a social media revolution in the 2010s to combat the imminent threat of on demand streaming video Barker examines the rise and fall of Social TV across press coverage corporate documents and an array of digital ephemera He demonstrates that despite the talk of disruption the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy Case

studies from broadcast networks to tech start ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period To trace these unfulfilled promises and flopped ideas Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing Yet in placing this now forgotten material in recent historical context Social TV shows how the era altered how the industry pursues audiences Multi screen campaigns have shifted away from a focus on live TV and toward all day content streams The legacy of Social TV then is the further embedding of media and promotional material onto every screen and into every moment of life

Emerging Dynamics in Audiences' Consumption of Trans-media Products Carmen Spano, 2020-11-27 The book investigates the new forms of empowered agency possessed by national audiences with reference to two particular television texts Game of Thrones and Mad Men The two popular American TV shows are highly successful products of the convergence era characterized by trans media storytelling as a strategy and the interconnection of audiences multiple practices of reception and fruition The book argues how the analysis of audience engagement with trans media texts will disclose important information about the various ways people organize their lives around media and how these activities help them to make sense of the world they live in

Second Person Noah Wardrip-Fruin, Pat Harrigan, 2007 Games and other playable forms from interactive fictions to improvisational theater involve role playing and story something played and something told In Second Person game designers authors artists and scholars examine the different ways in which these two elements work together in tabletop role playing games RPGs computer games board games card games electronic literature political simulations locative media massively multiplayer games and other forms that invite and structure play Second Person so called because in these games and playable media it is you who plays the roles you for whom the story is being told first considers tabletop games ranging from Dungeons

Dragons and other RPGs with an explicit social component to Kim Newman's Choose Your Own Adventure style novel *Life's Lottery* and its more traditional author-reader interaction. Contributors then examine computer-based playable structures that are designed for solo interaction for the singular you, including the mainstream hit *Prince of Persia: The Sands of Time* and the genre-defining independent production *Faade*. Finally, contributors look at the intersection of the social spaces of play and the real world, considering among other topics the virtual communities of such Massively Multiplayer Online Role Playing Games (MMORPGs) as *World of Warcraft* and the political uses of digital gaming and role-playing techniques as in *The Howard Dean for Iowa Game*, the first U.S. presidential campaign game. In engaging essays that range in tone from the informal to the technical, these writers offer a variety of approaches for the examination of an emerging field that includes works as diverse as George R.R. Martin's *Wild Cards* series and the classic Infocom game *Planetfall*. Appendixes contain three fully playable tabletop RPGs that demonstrate some of the variations possible in the form: *Mental Floss: The Curious Viewer* (Jennifer M. Wood, The Team at Mental Floss, 2021-10-19, subtitle from remote control graphic on cover), *The Californian*, 1881; *Collier's*, 1927; **Historical memorials of Westminster abbey.
