Geographies of Transport and Mobility Stewart Barr, Jan Prillwitz, Tim Ryley, Gareth Shaw, 2017-10-04 Geographies of Transport and Mobility aims to provide a comprehensive and evidenced account of the intellectual and pragmatic challenges for personal mobility in the twenty first century In doing so it argues that geographers have a key role to play in shaping academic and policy debates on how personal mobility can become more sustainable The book is structured in three parts Part I explores how personal mobility has evolved since the mid nineteenth century plotting the intricate relationship between new forms of mobile technology urban planning and design and social practices Part II examines how researchers study transport and mobility and outlines the different intellectual trajectories of transport geography and geographies of mobilities Part III then outlines and discusses the discourse of sustainable mobility that has emerged in recent years the ways in which social economic and environmental sustainability can be promoted through different strategies focusing on behavioural change and urban design Geographies of Transport and Mobility provides a unique perspective on personal mobility by demonstrating how the way we travel has developed through complex economic and social processes It argues that this historical context is critical for considering how mobility in the twenty first century can be more sustainable not just environmentally but also economically and socially As such it argues for a renewed focus on sustainable place making as a way to radically shift mobility practices Geographies of Transport and Mobility is designed to appeal to advanced level undergraduate students and researchers in the fields of geography anthropology psychology sociology and transport studies

The Classical Weekly, 1925 **Monographic Series** Library of Congress, 1981 *Index to the Geographical Review* Arthur-A Brooks, 1926 Listening to Landscape Phil Hubbard, 2025-10-16 An exploration of national identity that considers how dominant antiquated versions of Englishness are currently being challenged through contemporary experimental electronic music **Educational Times**, 1882 **Contemporary Rural Geographies** Hugh Clout, 2007-06-11 This book provides a cohesive set of research statements on critical related issues in British rural geography as well as echoing the priorities identified by an influential figure in British rural geography Richard Munton This book demonstrates that the rural world needs to be seen in a far wider perspective than that of agriculture food production in order to comprehend how resources are being appraised and exploited in new ways and to respond to the pressing challenges of sustainability for the decades ahead Chapters adopt a time perspective to explore a series of key themes the rise of productivist farming ways of conceptualising agricultural change the evolution of landownership and property rights

rural and urban agendas for nature conservation the gap between policy and action for sustainable development The final set of chapters is devoted to policy related issues associated with agricultural change and the profound challenge of rural diversification for the future The last chapter traces the prominent career of Richard Munton
