Bristol – Background, Migration, Changes & Challenges

The city of Bristol is a major port and a centre of industry and commerce. It is a city of contrasts, with a mix of old and new buildings, and a mix of people from different backgrounds. The city has a long history of migration, and this has shaped its character and development. In the 19th century, Bristol was a major port for the transatlantic slave trade, and many people from the West Indies and the Caribbean migrated to the city. In the 20th century, there was a large influx of people from the Commonwealth, particularly from the Caribbean and South Asia. This migration has led to a diverse and multicultural population, and it has also led to changes in the city's culture and identity. Today, Bristol is a vibrant and growing city, and it is facing a range of challenges, including housing, transport, and environmental issues. This case study will explore the background, migration, changes, and challenges of Bristol.
