Economic Report on Africa 2013 United Nations. Economic Commission for Africa,2013 This publication assesses long term trends in Africa's growth analyses the factors behind the recent growth momentum and provides global perspectives on the key challenges to be addressed which are critical to unleashing the role of Africa as a global growth pole The main aim of this publication is to facilitate discussion on concrete policy directions and actions at both national and regional levels that would help Africa realize its growth potential As in previous editions the first part of the report examines recent economic and social developments as well as some selected current and emerging development issues in Africa The second part focuses on the question of how to address key constraints and unleash the potential of the continent as a new pole of global growth

Cities, Slums and Gender in the Global South Sylvia Chant,Cathy McIlwaine,2015-12-22 Developing regions are set to account for the vast majority of future urban growth and women and girls will become the majority inhabitants of these locations in the Global South This is one of the first books to detail the challenges facing poorer segments of the female population who commonly reside in slums It explores the variegated disadvantages of urban poverty and slum dwelling from a gender perspective This book revolves around conceptualisation of the gender urban slum interface which explains key elements to understanding women's experiences in slum environments It has a specific focus on the ways in which gender inequalities are can be entrenched but also alleviated Included is a review of the demographic factors which are increasingly making cities everywhere feminised spaces such as increased rural urban migration among women demographic ageing and rising proportions of female headed households in urban areas Discussions focus in particular on education paid and unpaid work access to land property and urban services violence intra urban mobility and political participation and representation This book will be of use to researchers and professionals concerned with gender and development urbanisation and rural urban migration

New Challenges to Food Security Ian Christoplos,Adam Pain,2014-11-13 Food security is high on the political agenda Fears about societal insecurity due to food price increases and hunger grave scenarios regarding the effects of climate change and general uncertainty about the impacts of investments in biofuels and so call land grabbing on food prices and availability have meant that food security is now recognised as being a multifaceted challenge This book is unique in that it will bring together analyses of these different factors that impact on food security This volume will describe a range of different perspectives on food security with an emphasis on the various meanings that are applied to food security crisis The challenges to be reviewed include market volatility climate change and state fragility Analyses of responses to food security crises and risk will cover rural and urban contexts arenas of national policy formation and global food regimes and investment in land and productive technologies This book is unique in two respects First it takes a step back from the

normative literature focused on specific factors of for example climate change agricultural production or market volatility to look instead at the dynamic interplay between these new challenges It helps readers to understand that food security is not one discourse but is rather related to how these different factors generate multiple risks and opportunities Second through the case studies the book particularly emphasises how these factors come together at local levels as farmers entrepreneurs consumers local government officials and others are making key decisions about what will be done to address food security and whose food security will be given priority The book will explore how food production and consumption is embedded in powerful political and market forces and how these influence local actions

Secured Transactions Law Reform in Africa Marek Dubovec, Louise Gullifer, 2019-10-31 Over the last few decades many countries have reformed their secured transactions law One of the main reasons has been the clear link between reform and the availability of credit and the drive to improve access to finance particularly for micro small and medium sized enterprises This book focuses particularly on developing economies in Africa which have legal frameworks influenced by English French Belgian Roman Dutch and other laws Reform in this area of law across African countries has taken a number of forms which are explored and discussed in this book Secured Transactions Law Reform in Africa is a mixture of a critical description of the pre reform law and practice and the reform process itself It also includes a comparative analysis of the legal provisions and an examination of the early results of the reforms The book sets out a road map for the future of secured transactions reform primarily in Africa but also in other countries that have undertaken or are contemplating similar reforms This book is the second in a series of books about Secured Transactions Law in countries around the world and its reform both on a national and an international scale The first book *Secured Transactions Law Reform Principles Policies and Practice* was published in 2016

Ownership and Governance of Companies Jonathan Michie, Vishnu Padayachee, 2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC s mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as

special issues of International Review of Applied Economics **Ife Research Publications in Geography** ,2011

Routledge Handbook of Climate Justice Tahseen Jafry,2018-11-01 The term climate justice began to gain traction in the late 1990s following a wide range of activities by social and environmental justice movements that emerged in response to the operations of the fossil fuel industry and later to what their members saw as the failed global climate governance model that became so transparent at COP15 in Copenhagen The term continues to gain momentum in discussions around sustainable development climate change mitigation and adaptation and has been slowly making its way into the world of international and national policy However the connections between these remain unestablished Addressing the need for a comprehensive and integrated reference compendium The Routledge Handbook of Climate Justice provides students academics and professionals with a valuable insight into this fast growing field Drawing together a multidisciplinary range of authors from the Global North and South this Handbook addresses some of the most salient topics in current climate justice research including just transition urban climate justice and public engagement in addition to the field s more traditional focus on gender international governance and climate ethics With an emphasis on facilitating learning based on cutting edge specialised climate justice research and application each chapter draws from the most recent sources real world best practices and tutored reflections on the strategic dimensions of climate justice and its related disciplines The Routledge Handbook of Climate Justice will be essential reading for students and scholars as well as being a vital reference tool for those practically engaged in the field *Annual Report* University of Ghana,2012 *Subject Catalog* Library of Congress,1978 **Rural Development Abstracts** ,2012 [Zambezi Environment Outlook 2015](#) Zambezi Watercourse Commission,Southern African Development Community,Southern African Research and Documentation Centre,2015 **The Philippine Review of Economics** ,2015 **The State of African Cities, 2014** United Nations Publications,2015-09-10 The African continent is currently in the midst of simultaneously unfolding and highly significant demographic economic technological environmental urban and socio political transitions Africa s economic performance is promising with booming cities supporting growing middle classes and creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change *African Research & Documentation* ,2011 **Latin America's Emergence in Global Services** René A. Hernández,2014 Business services have been one of the fastest growing export areas in emerging economies over the past

decade The spread of information and communication technologies and the rise in trade liberalization have facilitated the global unbundling and offshoring of services activities from advanced to developing countries including those in Latin America This offshoring has gradually evolved into more sophisticated forms of business process outsourcing Several countries in the region are now in the process of further upgrading their services exports to participate in knowledge process outsourcing which includes research and development product development and more advanced vertical functions and activities in the value chain The empirical and analytical insights in this volume document how several countries in Latin America have entered the offshore services sector both through the attraction of multinational companies and the internationalization of domestic service suppliers The future of the offshore services sector in Latin America will depend on its ability to upgrade its knowledge and skill intensive product offerings This will call for the development of domestic technical capabilities the adoption of renewed industrial policies the promotion of backward and forward linkages and the continued upgrading of human capital and information technology integrated manufacturing The State of Food and Agriculture ,2012 **American Book Publishing Record** ,1985 *China's Aid & Soft Power in Africa* Kenneth King,2013 China s dramatic economic and trade impact on the developing world has received global attention yet its role as an education donor especially for Africans in China and within Africa itself has received little attention Here is hard evidence from Ethiopia Kenya and South Africa of the dramatic growth of China s soft power and of the implications of this for Africa China and the world
