Grade 12 Geography Paper March 2014:

The End of Public Schools David W. Hursh, 2015-10-16 *The End of Public Schools* analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public *Teacher Education in Professional Learning Communities* Xuefeng Huang, 2018-06-20 This book explores the unique experiences of a sister school network in Canada and China contextualized through the lens of the Reciprocal Learning Project which supports the relationship between a school network and teacher education exchange program of two countries Huang uses theoretical viewpoints from teacher learning and comparative education research to analyse and interpret what has happened in the emerging cross cultural school network The book juxtaposes teacher learning and comparative education research from Shanghai and Ontario as teachers in the two places interact and provides detailed descriptions of teacher collaboration to show how these collaborations were initiated developed and sustained as well as the impact brought about from these collaborations The book offers a unique opportunity to examine how Canadian and Chinese teachers receive and react to opportunities of cross cultural collaboration and learning **A University Education** David Willetts, 2017-11-17 Universities have a crucial role in the modern world In England entrance to universities is by nation wide competition which means English universities have an exceptional influence on schools a striking theme of the book This important book first investigates the university as an institution and then tracks the individual on their journey to and through university In *A University Education* David Willetts presents a compelling case for the ongoing importance of the university both as one of the great institutions of modern society and as a transformational experience for the individual The book also makes illuminating comparisons with higher education in other countries especially the US and Germany Drawing on his experience as UK Minister for Universities and Science from 2010 to 2014 the author offers a powerful account of the value of higher education and the case for more expansion He covers controversial issues in which he was involved from access for disadvantaged students to the introduction of 9 000 fees The final section addresses some of the big questions for the future such as the the relationship between universities and business especially in promoting innovation He argues that the two great contemporary trends of globalisation and technological innovation will both change the university significantly This is an authoritative account of English universities setting them for the first time in their new legal and regulatory framework *Local Experiences of Mining in Peru* Gerardo Castillo Guzmán, 2020-02-05 This book uses a multimethod approach to

examine local experience of contemporary mining development in the Peruvian Andes creating an understanding of the transformations that rural societies experience in this context Mining is a major component of economic growth in many resource endowed countries whilst also causing mixed social cultural and environmental effects Most current literature on contemporary mining in Peru is largely focussed on conflict however in this text the author takes a differing approach by examining the experiences of families in the vicinity of Rio Tinto s La Granja exploration copper project Northern Peru an area with great significance due to the mining investment and development which has taken place over the past 25 years The book first provides a critical discussion about production of space theories and debates on spatial mobility highlighting their relevance to understanding large scale mining developments especially in the Peruvian Andes The following chapters analyze spatial transformations mining development has prompted focusing on four axes access to space production mobility and representations of space A comprehensive narrative is constructed drawing on diverse voices and perspectives including those of family heads and their partners local leaders company employees and social scientists The book concludes by discussing how the findings challenge some of the current accounts of the social effects of mining development on rural communities and pose significant implications for sustainable development programs and place based practices By taking an interdisciplinary approach this book will appeal to a wide audience including geographers social anthropologists and social scientists interested in the social effects of mining as well as researchers interested in current Latin American Studies and Rural Development

Rare Earth Frontiers Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation
