Eugene Geist

Grade 12014 Maths Paper Scope:

Reinventing STEM in Early Childhood Education Eugene Geist, 2015-05-09 Teaching STEM to young children is about more than helping them learn their numbers and facts. It is an important and complex process that to be effective should honor the way children's brains are developing. This book outlines how early childhood educators can best support young children's STEM journeys as children naturally take in information about their environment, synthesize it, and grow in the process. This comprehensive text details different theories of learning, research on how young brains develop, practical information on preparing your environment and yourself for teaching STEM to children, guidance for supporting diverse populations of students, and developmental guidelines, sample standards, resources, and lesson plans. Organized chronologically, the book connects relevant STEM topics with each developmental age range and outlines common school standards for each grade. *Reinventing STEM in Early Childhood Education* is meant to be a core text for preservice teachers in math and science methods courses and is also important reading for teacher educators and professional development programs.

Knowledge Engineering and the Semantic Web Pavel Klinov, Dmitry Mouromtsev, 2014-09-03 This book constitutes the refereed proceedings of the 5th Conference on Knowledge Engineering and the Semantic Web KESW 2014 held in Kazan, Russia, in September-October 2014. The 18 revised full papers presented together with 4 short system descriptions were carefully reviewed and selected from 44 submissions. The papers address research issues related to semantic web, linked data, ontologies, natural language processing, knowledge representation.
