Experts,2020-02-04 *Africa in the Age of Globalisation* Assoc Prof Edward Shizha,Assoc Prof Lamine Diallo,2015-04-28
This is a collection of bold and visionary scholarship that reveals an insightful exposition of re-visioning African development from African perspectives. It provides an interdisciplinary conceptual base that can effectively guide the planning and implementing of programs for socio-economic development in Africa. The book provides up-to-date scholarly research on continental trends on various subjects and concerns of paramount importance to globalisation and development in Africa: politics, democracy, education, gender, technology, global relationships, and the role of non-governmental organisations.

Southeast Asian Migration Khatharya Um,Sofia Gaspar,2015-10-01 Southeast Asia has long been a crossroad of cultural influence and transnational movement, but the massive migration of Southeast Asians throughout the world in recent decades is historically unprecedented. Dispersal, compelled by economic circumstance, political turmoil, and war, engenders personal, familial, and spiritual dislocation and provokes a questioning of identity and belonging. This volume features original works by scholars from Asia, America, and Europe that highlight these trends and perspectives on Southeast Asian migration within and beyond the Asia-Pacific region. Adopting an interdisciplinary approach with contributions from sociology, political science, anthropology, and history, and anchored in empirical case studies from various Southeast Asian countries, it extends the scope of inquiry beyond the economic concerns of migration and beyond a single country, source, or destination and disciplinary focus. Analytic focus is placed on the forces and factors that shape migration trajectories and migrant incorporation experiences in Asia and Europe; the impact of migration and immigration status on individuals, families, and institutions; on questions of equity, inclusion, and identity; and the triangulated relationships between diasporic communities, the sending and receiving countries. Of particular importance is the scholarly attention to lesser-known populations and issues such as Vietnamese in Poland, children, and the 1.5 generation immigrants; health and mental consequences of state-sponsored violence and protracted encampment; ethnic media; and the challenges of both transnational parenting and family reunification. In examining the complex and creative negotiations that immigrants engage locally and transnationally in their daily lives, it foregrounds immigrant resilience in the strategies they adopt not only to survive but thrive in displacement.
