Gil-Pechuán,Sofia Estelles-Miguel,2015-05-08 This book attempts to link some of the recent advances in crowdsourcing with  
advances in innovation and management It contributes to the literature in several ways First it provides a global definition  
insights and examples of this managerial perspective resulting in a theoretical framework Second it explores the relationship  
between crowdsourcing and technological innovation the development of social networks and new behaviors of Internet  
users Third it explores different crowdsourcing applications in various sectors such as medicine tourism information and  
communication technology ICT and marketing Fourth it observes the ways in which crowdsourcing can improve production  
finance management and overall managerial performance Crowdsourcing also known as massive outsourcing or voluntary  
outsourcing is the act of taking a job or a specific task usually performed by an employee of a company or contractors and  
outsourcing it to a large group of people or a community crowd or mass via the Internet through an open call The term was  
coined by Jeff Howe in a 2006 issue of Wired magazine It is being developed in different sciences i e medicine engineering  
ICT management and is used in the most successful companies of the modern era i e Apple Facebook Inditex Starbucks The  
developments in crowdsourcing has theoretical and practical implications which will be explored in this book Including  
contributions from international academics scholars and professionals within the field this book provides a global
