Geography Controlled Test March 2015:

Advances in the Evolutionary Ecology of Termites Alberto Arab, Solange Del Carmen Issa Ponce, Daniel Aguilera-Olivares, 2023-08-16 Termites are eusocial insects that live in colonies composed of hundreds to millions of individuals. Their colonies are mainly organized into reproductive and non-reproductive castes which have specific tasks such as nest construction, foraging, reproduction, brood care, and colony defense. The evolution of the symbiotic association between termites and microorganisms allows them to decompose ingested lignocellulose from plant substrates such as wood, including herbivore dung and soil humus, making them important insect decomposers that play a crucial role in ecosystem functioning by contributing to litter decomposition, soil formation, and nutrient cycling. On the other hand, termites have recently been classified as eusocial cockroaches, which have gained increasing attention in evolutionary studies to understand the transition to eusociality from subsocial wood roaches. This current growing interest in termite research calls for a collection dedicated to these fascinating insects.

The Protection and Conservation of Water Resources Hadrian F. Cook, 2017-03-13 This book is about water in Britain and in the world. It is about water resources, their conservation, protection of water quality for human consumption, and aquatic ecosystems. Since the publication of the first edition in 1998, major political and regulatory changes have taken place; this book provides a clear and comprehensive update of conservation and water resource management issues in the UK over the past two decades and, in an expansion of its original UK perspective, now includes examples of global best practice. The UK's 2003 adoption of the EU Water Framework Directive has had enormous implications for the conservation and management of our water resources. In 2016, with the UK's decision to leave the EU, the governance scene is entering upon an unpredictable future regarding its major water resource policies. **The Protection and Conservation of Water Resources**, Second edition, provides a clear and comprehensive update of conservation and water resource management issues. Chapter 1 deals with sustainability and water policy, outlines the issues and challenges, and asks what is integrated water management. Chapter 2 reviews water availability and sufficiency in Britain, while Chapter 3 explores the dynamic between institutions and legislative framework. Chapter 4 introduces the catchment approach, and chapters 5 and 6 explore the issues of sustaining bulk supply and the imperatives of climate change. Chapter 7 looks at the contemporary background to water quality issues, and Chapter 8 provides case studies of catchment problems, both urban and rural. Chapter 9 describes solutions in land use change, including technical fixes and their sustainability. Chapter 10 is concerned with emerging governance arrangements, and Chapter 11 takes a global view, looking at successful examples around the world to find positive lessons from Europe, North America, and Australia.

The Experience and Fear of Violence in the Public Realm Charlotte Fabiansson, 2023-05-12 This book explores violent and discriminatory values and beliefs and their interconnectedness between societal echelons. Violence has a foundation and a context. It comes from somewhere and is directed at someone or something, and it has an ambience established through generations of social

cultural political financial and religious strategies It fashions nation states hegemonic ideology and frames individual behaviours and attitudes thus creating a milieu that enables the normalisation of violence The focus is on violence infused behaviours and actions in the public realm a multifunctional environment for social and cultural activities as well as a workplace entertainment and transport hub It is a public setting sometimes demanding onerous deftness of individuals to stay safe Attitudes values and beliefs around violence harassment and discrimination in the public realm frequently occur openly without anyone noticing that a crime has been committed including by close bystanders An audience steeped in societal hegemonic social and cultural patriarchal ideology might be oblivious to harassing or discriminative behaviours and attitudes against females minority genders and ethnic minority groups The habitual nature and normalisation of these invisible crimes make them easy to dismiss Violence materialises on all societal levels the hegemonic structural macro level consisting of the society's dominating political financial social cultural and religious leaders educational and community institutions meso level and the individual agency micro level hence the nationstate's populace Societal order is underpinned by structural systemic and symbolic violence all integrated into contemporary society's cultural and social fabric thus inconspicuous social norms as ingrained through internalisation The book is written from a sociological perspective and within the risk society discourse where the risk of violence in the public domain is omnipresent Discourses of Arendt Bauman Bourdieu Marx Foucault Galtung and Beck and present day analysis underpin the discussions The agency and political leadership research emphatically show that violence and discrimination are normalised and ingrained in the contemporary milieu

Made Free and Thrown Open to the Public Bernadette A. Lear, 2021-09-21 Made Free and Thrown Open to the Public charts the history of public libraries and librarianship in Pennsylvania Based on archival research at more than fifty libraries and historical societies it describes a long progression from private subscription based associations to publicly funded institutions highlighting the dramatic period during the late nineteenth and early twentieth centuries when libraries were thrown open to women children and the poor Made Free explains how Pennsylvania's physical and cultural geography legal codes and other unique features influenced the spread and development of libraries across the state It also highlights Pennsylvania libraries many contributions to the social fabric especially during World War I the Great Depression and World War II Most importantly of all Made Free convincingly argues that Pennsylvania libraries have made their greatest strides when community activists and librarians supported with state and local resources have worked collaboratively

The Northern Question Tom Hazeldine, 2021-09-21 A history of the UK's regional inequalities and why they matter Differences between England's North and South continue to shape national politics from attitudes to Brexit and the electoral collapse of Labour's Red Wall to Whitehall's experimentation with regional pandemic lockdowns Why is this fault line such a persistent feature of the English landscape The Northern Question is a history of England seen in the unfamiliar light of a northern perspective While London is the capital and the centre for trade and finance the proclaimed leader of the nation northern

England has always seemed like a different country In the nineteenth century its industrializing society appeared set to bring a political revolution down upon Westminster and the City Tom Hazeldine recounts how subsequent governments put finance before manufacturing London ahead of the regions and austerity before reconstruction
