

Geography Term Paper Guidelines

This guide is for students writing term papers for a Geography class. The contents of this guide are meant to serve as a style and organization reference. We assume that all term papers will be typed on a word processor.

Organization of the Paper

A **purpose statement** that provides the reader with a sense of the content and method of investigation must be included early in the paper.

A term paper should be organized with several sections that are indicated by **headers**. The type and number of sections in your paper will vary depending on the topic and class you are writing for, but most every paper will have an introduction and conclusions section. Other example section headers include Methods, Results, and Discussion. In addition to guiding the reader through your paper, the headers will serve as an outline, helping you construct a good paper.

References and Citation Style

Term papers in Geography classes must use original reference material. The number of sources you use will vary with instructor requirements or your assigned or chosen topic.

All reference material must be documented both in a **reference list** at the end of the paper and also at appropriate points **in the text**. Failure to acknowledge the source of facts or ideas in the text is a form of plagiarism, even if the source is in the reference list.

Stylistically, geographers do not typically use the MLA or APA reference style in the text or reference list. In the text, your citation style varies with the number of authors on the source; examples: (Jones, 2000), (Jones and Smith, 2000), or (Jones et al., 2000). Only include the page number if the source is from a book, for example: (Jones, 2000, p.52).

The reference list style will vary with the type of the source, but the following provide good examples of proper documentation for different sources.

Examples of Citations in text

The citation style we want you to use is the most common style used in scientific journals. This style simply provides the author's name and year of publication.

Example 1: Disturbance often leads to a patchiness or heterogeneous pattern within the landscape (White and Pickett 1985).
