

HOW TO WRITE A 5-PARAGRAPH ESSAY.

by emmastudies.com

First paragraph

1. **Eye opening sentence** that catches the reader's attention; this needs to be about your subject, but it can be funny or even a little overblown, if you admit it to be such. (1a) You can elaborate briefly on what you just said, to make it connect to your real argument.
2. **Summary of your first body paragraph's arguments.** (2a) These summaries can be two sentences depending on how much you have to say.
3. **Summary of your second body paragraph's arguments.** (3a) See 2a.
4. **Summary of your third body paragraph's arguments.** (4a) Again, see 2a.
5. **Thesis statement:** this is a summary of the entire argument of your paper, built upon the three points from your paragraphs. (5a) Your thesis can definitely be more than one sentence, but try to keep it to less than three for a 5-paragraph essay.

Body paragraphs (write three of these in support of your thesis)

1. **Topic sentence:** a summary of the argument you make in this paragraph. (1a) This can be two sentences if the point is complex. (1b) To improve cohesion of your essay, link this sentence to the previous paragraph.

Then use the following structure to fill your paragraphs, and use it twice per body paragraph.

- **Claim:** make a claim about your text, your experimental data or whatever else the assignment is about. A claim is just a small, individual piece of your total argument.
- **Evidence:** Quote, or summarise very closely, from the text or data you've working from. Even if that data is life experience, you should most definitely cite a specific experience. Do not be general. If you need to quote a large block of text or data, that's fine. Just make sure that you only quote the meaningful text or data.
- **Warrant:** Explain how your evidence proves your claim.
- **Closing statement:** Link back to your topic sentence to finish the paragraph.

As mention above, perform this 3-pronged attack twice per paragraph, for each body paragraph. Repeat for two more body paragraphs.

Conclusion

1. **Restate your thesis statement** with slightly more elaboration than the first time you said it. Do not repeat your thesis exactly, but do repeat its contents in light of the three paragraphs of explaining you just did.
2. **Re-summarise the argument of your first body paragraph.**
3. **Re-summarise the argument of your second body paragraph.**
4. **Re-summarise the argument of your third body paragraph.**
5. **Closing statement to tie it together.**
