Gegraph Paper November 2013 Memo:

The Changing Practices of International Law Tanja Aalberts, Thomas Gammeltoft-Hansen, 2018-04-05 With more than 158 000 treaties and some 125 judicial organisations international law has become an inescapable factor in world politics since the Second World War In recent years however international law has also been increasingly challenged as states are voicing concerns that it is producing unintended effects and accuse international courts of judicial activism This book provides an important corrective to existing theories of international law by focusing on how states respond to increased legalisation and rely on legal expertise to manoeuvre within and against international law Through a number of case studies covering a wide range of topical issues such as surveillance environmental regulation migration and foreign investments the book argues that the expansion and increased institutionalisation of international law itself have created the structural premise for this type of politics of international law More international law paradoxically increases states political room of manoeuvre in world society

[A Usable Collection](#) Jan Lucassen, Aad Blok, Huub Sanders, 2025-10-01 Established in 1935 the International Institute of Social History IISH is one of the world s leading research institutes focused on social history and holds one of the richest collections in the field This volume brings together thirty five essays in honor of the IISH s longtime director Jaap Kloosterman who built the institute into a world leader in the field

The War Lawyers Craig Jones, 2020 Over the last 20 years the world s most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of military operations have become known as war lawyers The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and or ground forces and with what results This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence

Coast Guards and Ocean Politics in the Arctic Andreas Østhagen, 2019-11-04 This book is about how coast guards are becoming states foremost tool to manage changes occurring in ocean politics generally and in the Arctic specifically It looks at states rights at sea changes occurring in the Arctic region how coast guards are handling issues arising and how international cooperation can deal with some of the related challenges

[Cash Not Care](#) Mo Stewart, 2016-09-14 Mo Stewart is a former healthcare professional a disabled female veteran and an independent researcher This book is the culmination of six years of self funded research and the evidence exposes the

influence of corporate America since 1992 with the future welfare reforms of the UK The impact of the enforced austerity measures of the UK government is identified as they negatively affect the welfare and the survival of the chronically sick and disabled population in receipt of welfare benefits when unfit to work The research has informed welfare reform debates in the House of Lords and the House of Commons since 2011 and contributed to the evidence used by the United Nations to investigate the UK government for breaches of the Human Rights of sick and disabled people Endorsed by the disabled community and by academics the research has identified the adoption of lethal social policies copied from American social security policies and linked to the death of thousands of the most vulnerable of all as the UK welfare state is systematically demolished as all planned over thirty years ago by a previous Conservative government [The State of African Cities, 2014](#) United Nations Human Settlements Programme,2013 Nairobi UN Habitat c2014 9789211325980 *Documents Communicated to the Senate and House of Representatives* ,1895 **The State of African Cities, 2014** United Nations Publications,2015-09-10 The African continent is currently in the midst of simultaneously unfolding and highly significant demographic economic technological environmental urban and socio political transitions Africa s economic performance is promising with booming cities supporting growing middle classes and creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change [Annual Report](#) Michigan.
