*Reading Empirical Research Studies* John R. Hayes, Richard E. Young, Michele L. Matchett, Maggie McCaffrey, Cynthia Cochran, 2020-10-07 For the most part those who teach writing and administer writing programs do not conduct research on writing Perhaps more significantly they do not often read the research done by others because effective reading of articles on empirical research requires special knowledge and abilities By and large those responsible for maintaining and improving writing instruction cannot without further training access work that could help them carry out their responsibilities more effectively This book is designed as a text in graduate programs that offer instruction in rhetoric and composition Its primary educational purposes are to provide models and critical methods designed to improve the reading of scientific discourse to provide models of effective research designs and projects appropriate to those learning to do empirical research in rhetoric Aiming to cultivate

new attitudes toward empirical research this volume encourages an appreciation of the rhetorical tradition that informs the production and critical reading of empirical studies The book should also reinforce a slowly growing realization in English studies that empirical methods are not inherently alien to the humanities rather that methods extend the power of humanist researchers trying to solve the problems of their discipline [Why Good Argument is Critical to Useful Research](#) Mike

Metcalf,2007 Writers like Rorty Popper Dewey and Feyerabend suggest that rather than searching for more and more exacting and rigorous rules for how to undertake well justified research we need to be concerned with communities of doubters These if adequately applying dialectic argument will act to challenge unjustified knowledge claims and so save us all from being deceived This book encourages doubt by providing over a dozen ways to critique research especially where that research results in knowledge claims about human activities Each chapter provides another pragmatic conception of knowledge used to question the assumptions behind whatever research work you have just read Therefore the book offers a way of learning about your own discipline specific research literature while also learning how to design a well justified research report **Speaking Up** Anita Abraham,Amy Matthusen,2021-09-15 One on one conferences have become a
