DO NOT charge after 2 hours of charging.

To charge battery and record video / photos simultaneously:

You can charge the camera's battery while simultaneously recording video or photos. Simply plug the camera into a 1000mAh USB-based wall, car, or phone charger to charge the HD HERO camera while recording video or photos. It is best to use a 1 amp 1,000mAh-charger for maximum charging performance when also recording video or photos with the camera while charging.

See [www.gopro.com](#) for more information and authorized GoPro resellers.

### REMOVING BATTERY FROM THE CAMERA

The HD HERO camera is designed to have reliability in high vibration activities. To remove the battery, squeeze the sides of the battery and pull it out of the camera. It is intentionally not easy to do. Use battery removal tool to help. Do not attempt to remove the battery. Please note, if you do remove the battery you will lose your time and date settings on the camera. Additional batteries and charging accessories are available at [gopro.com](#).

### CONNECTING CAMERA TO TV OR HDTV
