What if you could challenge your ninth graders to use geologic theory and standards of measurement to explore different epochs and time periods of the Earth's formation With this volume in the STEM Road Map Curriculum Series you can *Formation of the Earth* outlines a journey that will steer your students toward authentic problem solving while grounding them in integrated STEM disciplines Like the other volumes in the series this book is designed to meet the growing need to infuse real world learning into K-12 classrooms This interdisciplinary three lesson module uses project and problem based learning to help students investigate how Earth science professionals gather information and develop theories about the formation of the Earth and the processes taking place since the proliferation of humans Working in teams students will work to identify, define and describe the attributes scientists use to delineate Earth's eras, periods and epochs in order to determine the appropriate boundary event to define the Anthropocene Epoch and will develop a publication ready textbook entry for an Earth science textbook To support this goal students will do the following:  
Identify, define and describe attributes of eras, periods and epochs which have marked geologic time in Earth's history  
Evaluate various possible index layers and boundary events that mark the beginning of the Anthropocene Epoch to determine which is most appropriate when labeling the current epoch in Earth's history  
Design and present a multimedia presentation to share with textbook publishers regarding information on the Anthropocene Epoch to include in a secondary level Earth science textbook  
Create a publication ready textbook entry describing the Anthropocene Epoch  
The STEM Road Map Curriculum Series is anchored in the Next Generation Science Standards, the Common Core State Standards and the Framework for 21st Century Learning In depth and flexible *Formation of the Earth* can be used as a whole unit or in part to meet the needs of districts, schools and teachers who are charting a course toward an integrated STEM approach
