

## MATHEMATICS GRADE 11 NOTES

### EXAMPLES:

#### Example 1

$$(x-3)(x+5) = 9$$

$$x^2 + 5x - 3x - 15 - 9 = 0$$

$$x^2 + 2x - 24 = 0$$

$$(x+6)(x-4) = 0$$

$$x = -6 \text{ or } x = 4$$

#### Example 2

Solve for  $x$ :

$$\sqrt{x-2} + x = 4$$

$$\sqrt{x-2} = 4 - x$$

$$x-2 = (4-x)^2$$

$$x-2 = 16 - 8x + x^2$$

$$x^2 - 8x + 16 - x + 2 = 0$$

$$x^2 - 9x + 18 = 0$$

$$(x-3)(x-6) = 0$$

$$x = 3 \text{ or } x = 6$$

after checking both solutions

$x = 3$  is the only solution

#### Example 3

Solve for  $x$ :

$$15x - 4 > 9x^2$$

$$15x - 4 - 9x^2 > 0$$

$$9x^2 - 15x + 4 < 0$$

$$(3x-1)(3x-4) < 0$$

$$\frac{1}{3} < x < \frac{4}{3}$$

## **Grade Mathematics Exam Paper 2014 November:**

*Discrimination based on Colour, Ethnic Origin, Language, Religion and Belief in Turkey's Education System* Nurcan Kaya, 2015-10-27 The Turkish government is urged to make a fundamental shift in its approach to education by Minority Rights Group International MRG in a new report. A long standing focus on state building has been supplemented by increasing emphasis on religious teaching. Both feature strongly in the education system in Turkey making schools a focus of discrimination. The report *Discrimination based on Colour Ethnic Origin Language Religion and Belief in Turkey's Education System* reveals evidence of discrimination of minority groups and suggests comprehensive reforms to effectively ensure equality. The national education system which for decades aimed to create young Turkish nationalists has in recent years become a vehicle for raising young religious Turkish nationalists says Nurcan Kaya Turkey Coordinator of Minority Rights Group International. Religious education is compulsory from grade four in primary schools. While some information on world religions has been introduced the emphasis remains on teaching Sunni Muslim religious practices. Children of Jewish and Christian families may apply to opt out but the process can be cumbersome and in many schools alternatives are not provided for them. Non Muslim students who have opted out can still find themselves having to remain in the religious instruction class or alternatively having to wander in the school corridor making them vulnerable to taunts from pupils and even teachers. The opt out possibility is still not available to children of other minorities. Another issue is mother tongue education. In 2012 a new elective on the living languages and dialects in Turkey was introduced but due to various limitations minorities remain marginalised others in the education system. Subsequent to the 2012 reform the report monitors discrimination in the formal education system in the period of the academic year of 2014-2015. The findings are based on the field work of the Monitoring Discrimination in Education Network an alliance of 16 organizations working in Turkey. The report compiles numerous cases of discrimination based on language religion ethnicity skin colour and the level of income. In order to bring about a fundamental solution to these problems in the education system the government must prioritise developing an approach that sees all groups as equal and that responds to demands for rights based on such an understanding of equality says Kaya. The report highlights that Turkey has no anti discrimination law or an equality commission to which victims of discrimination can apply. The existing legislation contains no effective and accessible means of judicial remedies or compensation. Therefore many discriminatory practices are not reported to school administrations. The entire education system is based on Turkishness. Non Turkish groups are either not referred to or referred in a negative way says Kaya. Education system has played a significant role in deepening conflict in society. The positive representation of other groups in the education system would contribute to social peace and harmony. In order to resolve the many problems in the education system that the current approach causes the overall aim of government education policy should be cleared of ideological references and the protection of children's best interests and the right to education in line with international standards should be considered its

fundamental goal says the report      **Effective Grading Practices for Secondary Teachers** Dave Nagel,2015-03-04 Enact innovative grading systems that more accurately describe student progress This book challenges traditional grading practices and provides alternatives that can have direct impact on student success By making subtle shifts toward standards based grading systems schools can reduce unnecessary course failures provide students and their families a more accurate picture of current progress and increase opportunities for success The author offers a range of grading reform strategies that are built from practical frameworks that are effective and simple to adapt Among the many strengths of this book are Practical application of existing research and evidence base for effective secondary grading reforms A framework for schools and districts to apply and adapt failure prevention strategies such as early failure detection Amnesty Days and meaningful stipulated second chance opportunities for students to reach mastery Functional strategies and actions for shifting toward standards based referenced grading without entirely abandoning letter grades Countering resistance to change through a clearly articulated plan for conducting school wide and classroom level action research around the effectiveness of new or adjusted grading practices Informative and pragmatic this book is spot on with analysis of this elephant in the room issue Nagel uses both empathy and humor in getting to the heart of a process to generate real solutions while underscoring the ultimate need for teacher voice in any successful implementation He provides ready made strategies for real impactful change I m left hopeful that feedback will rule the day Bruce Potter Superintendent Berkshire UFSD Nagel offers an insightful and articulate voice to secondary improvement and alignment through grading practices His tried and true methods through working with real districts provides a starting place and examples for others to follow A must read for anyone serious about ensuring student engagement through meaningful feedback Debra K Howe Superintendent Tri Creek School Corporation      *International Conference on Lifelong Education and Leadership for All (ICLEL 2023)* Osman Titrek,Carlos Sousa de Reis,José Gijon Puerta,2024-02-28 This is an open access book We are delighted to invite you to the 9th International Conference on Lifelong Education and Leadership for All to be held July 06 08 2023 at the University of Coimbra Portugal The main topic of ICLEL 2023 is Entrepreneurship Creativity and Education      **Leadership Approaches to Negotiate Challenges in a Changing Education Landscape** Leentjie van Jaarsveld,Kobus Mentz,Charl C. Wolhuter,2020-12-31 The argumentative point of departure of this scholarly book is the common conviction of specialists in the field of education in South Africa that the national education system is not at a satisfactory level in both the academic and the public discourse Such allegations are made and frequently stronger adjectives than non satisfactory are used Results of international test series in which South Africa has participated such as the 2015 TIMSS tests confirm the negative verdicts found in the public and scholarly discourse This book aims to argue that although the lack of performance could be attributed to a multiplicity of factors one factor that can make a difference in the achievement levels obtained by learners in schools is leadership The book demonstrates that a particular problem of both the scholarly and the public discourse on education in

South Africa is an overtone of defeatism or resignation blaming all ills in the education system and educational institutions on historical legacies and or contextual factors such as socio economic deprivation in the catchment areas of schools or poor resources and infrastructure This collected work was inspired by a recently published spate of articles on top performing schools including top performing schools in rural communities in which it was demonstrated that good leadership can overcome such contextual and other challenges The book unpacks the issue of leadership in South African schools from a variety of perspectives thus contributing to the development of the scholarly discourse on Educational Leadership in South Africa The target audience of the book is scholars of Educational Leadership The research reported in the chapters draw on a wide range of methodologies including empirical survey research questionnaires and interviews critical literature surveys and the comparative method

*Complex Problem Solving Beyond the Psychometric Approach* Wolfgang Schoppek, Joachim Funke, Magda Osman, Annette Kluge, 2018-09-28 Complex problem solving CPS and related topics such as dynamic decision making DDM and complex dynamic control CDC represent multifaceted psychological phenomena In abroad sense CPS encompasses learning decision making and acting in complex and dynamic situations Moreover solutions to problems that people face in such situations are often generated in teams or groups This adds another layer of complexity to the situation itself because of the emerging issues that arise from the social dynamics of group interactions This framing of CPS means that it is not a single construct that can be measured by using a particular type of CPS task e g minimal complex system tests which is a view taken by the psychometric community The proposed approach taken here is that because CPS is multifaceted multiple approaches need to be taken to fully capture and understand what it is and how the different cognitive processes associated with it complement each other Thus this Research Topic is aimed at showcasing the latest work in the fields of CPS as well as DDM and CDC that takes a holist approach to investigating and theorizing about these abilities The collection of articles encompasses conceptual approaches as well as experimental and correlational studies involving established or new tools to examine CPS DDM and CDC This work contributes to answering questions about what strategies and what general knowledge can be transferred from one type of complex and dynamic situation to another what learning conditions result in transferable knowledge and skills and how these features can be trained
