Gene Stratton-Porter: Freckles Gene Stratton-Porter,2010-06-11 Like all of Gene Stratton Porter s books Freckles is beautifully written One of the tests of good literature is whether it makes us think about important issues while enjoying the elements of the text and Gene Stratton Porter accomplishes just that in Freckles Like A Girl of Limberlost Freckles is a product of Stratton Porter s own life and the times in which she lived There were class differences in the early 1900 s and it was challenging for low born people to believe they could rise above that They didn t have our modern day notion of arrogance and independence This is why Freckles has historical value in addition to its literary content and unique storylines Freckles is a great role model for boys and girls alike and is so humble He will not let the Swamp Angel marry him because he has only one hand is an orphan and has no knowledge of honorable birth which he thinks is very important While it is true that the rich characters in Freckles looked down on others and that humble folk always respected the rich people those were the attitudes and behavior of people in the times in which the book was written In regards to Freckles always

believing bad about himself he did so because he had no way of knowing who he really was so he assumed the worst many people do that This attitude is called determinism which is basically the belief that people cannot rise above their background heritage circumstances or physical conditions that they are helpless to change their circumstances and lot in life

Determinism was a major concern in the works of many authors of Gene Stratton Porter s time period who were seeking to challenge the set social classes and attitudes and forge new identities

Richards, 1980 [Moths of the Limberlost](#) Gene Stratton-Porter, 2018-03-15 To me the *Limberlost* is a word with which to conjure a spot wherein to revel The swamp lies in north eastern Indiana nearly one hundred miles south of the Michigan line and ten west of the Ohio In its day it covered a large area When I arrived there

were miles of unbroken forest lakes provided with boats for navigation streams of running water the roads around the edges corduroy made by felling and sinking large trees in the muck Then the Winter Swamp had all the lacy exquisite beauty of such locations when snow and frost draped while from May until October it was practically tropical jungle From it I have sent to scientists flowers and vines not then classified and illustrated in our botanies
