Are you constantly online Or are you offline sometimes Are you offline if you are not interacting with your connected devices Or if no data about you is being collected Do you check Instagram and Twitter during dinner Do you turn off your smartphone at night Do you check work emails on vacation Do you feel you have to disconnect regularly to relax to concentrate or to protect your privacy Or do you feel more relaxed when constantly connected because your loved ones a work emergency or the news are always at your fingertips Why are some people even within networked societies still completely offline given the tremendous opportunities of the Internet And what does it even mean to be online or offline in the age of hyper connectivity

In ON OFF Sarah Genner assesses the risks and rewards of the anytime anywhere Internet focusing on digital divides social relationships physical and mental health and data privacy She discusses implications for a variety of decision makers in the world of work in education in families and in politics

The author deconstructs the online offline dichotomy and suggests the ON OFF scale as a new theoretical framework for researchers and practitioners
