Books are by far, the most lasting product of human effort. Temples crumbles into ruin, pictures and statues decay, but books survive. Time does not destroy the great thoughts which are as fresh today as when they first pass through their author's mind. These thoughts speaks to us through the printed page. The only effects of time has been to throw out of currency of the bad products. Nothing in literature which are not good can live for long. Good books have always helped man in various spheres of life. No wonder that the world keeps its books with great care.
