### **Rainwater Tank Systems for Urban Water Supply** Ashok K. Sharma, Donald Begbie, Ted Gardner, 2015-05-15

Rainwater tank systems have been widely adopted across the world to provide a safe local source of water in underdeveloped rural areas a substitution for mains water for non potable end uses in water stressed urban areas as well as providing flooding control in monsoonal climates such as Korea or combined sewer systems such as Germany The importance of these systems in cities has grown as water managers seek to provide a range of decentralised solutions to supply constraints of current water supply systems whilst reducing the impact of urban development on the natural environment and increasing resilience to the impacts of climate change Rainwater tank systems are now often implemented under integrated urban water management IUWM and water sensitive urban design WSUD philosophies which take a holistic view of the urban water cycle Rainwater Tank Systems for Urban Water Supply is based on a comprehensive multi million dollar research program that was undertaken in South East Queensland SEQ Australia in response to the Millennium drought when the water supply level in the regions drinking water dams dropped to 17% in July 2007 and the area came close to running out of water In particular the book provides insights and detailed analysis of design modelling implementation operation energy usage economics management health risk social perceptions and implications for water quality quantity of roof water runoff The approaches and methodologies included in Rainwater Tank Systems for Urban Water Supply inform and validate research programs and provide insights on the expected performance and potential pitfalls of the adoption of rainwater tanks systems including actual harvested yield and resulting mains water savings optimal sizing for rainwater storages and roof collection systems expected water quality and implications for managing public health risks modelling tools available for decision support operation and management approaches of a decentralised asset at the household scale and community acceptance The book is suitable for use at undergraduate and post graduate levels and is of particular interest to water professionals across the globe who are involved in the strategic water planning for a town city or a region It is a valuable resource for developers civil designers water planners architects and plumbers seeking to implement sustainable water servicing approaches for residential industrial and commercial developments

*Gerontological Nursing* Caroline Vafeas, Susan Slatyer, 2020-07-31 This first edition Australian text aligns nursing care principles and practice to the unique requirements of older people Written by leading academics and clinicians Gerontological Nursing A holistic approach to the care of older people covers the essential skills of gerontological care with a focus on chronic diseases neurocognitive disorders mental health quality of life and healthy ageing palliative care and bereavement safety issues and the role of the caregiver As nurses play an ever more critical role in supporting the needs of an ageing population this essential text will enable nursing students to navigate the complexities of older people s healthcare promote healthy ageing and help people to live well End of chapter practice scenarios with questions Tips for best practice Focus on contemporary models of care and clinical governance

Inclusion of most common chronic diseases affecting older adults including dementia depression and delirium Dedicated chapter on Safety and Security Expert contributors from multiple Australian and New Zealand universities Aligned to the Australian Aged Care Quality Standards as well as international standards and guidelines An eBook included in all print purchases Additional resources on Evolve eBook on VitalSource Instructor resources PowerPoints MCQs Chapter worksheets

*Midwifery* Sally Pairman, Sally K. Tracy, Carol Thorogood, Jan Pincombe, 2010 *Midwifery Preparation for Practice 2e* is the only text which reflects the historical and socio political environment in which midwives in Australia and New Zealand practice In addition it is the only text which incorporates the philosophy and standards endorsed by New Zealand and Australian Colleges of Midwives while also focusing on the partnership between midwives with women and the woman centred model of midwifery care The second edition has built on the existing philosophy and structure of *Midwifery Preparation for Practice* though with a greater emphasis on the development of critical thinking and researching skills Key chapters have been re written to reflect recent changes in government legislation while current research and pertinent examples are included throughout the text This new edition is supported by a comprehensive suite of resources for both Instructors and Students using the Evolve website as a platform These ancillaries will re enforce the critical thinking elements for students with interactive case studies and scenario based learning exercises as well as the multiple choice questions
