Footnotes In Gaza:

Footnotes in Gaza Joe Sacco, 2010 Sacco brings the conflict down to the most human level allowing us to imagine our way inside it to make the desperation he discovers in some small way our own Rafah a town at the bottommost tip of the Gaza Strip has long been a notorious flashpoint in the bitter Middle East conflict Buried deep in the archives is one bloody incident in 1956 that left 111 Palestinians shot dead by Israeli soldiers Seemingly a footnote to a long history of killing that day in Rafah cold blooded massacre or dreadful mistake reveals the competing truths that have come to define an intractable war In a quest to get to the heart of what happened Joe Sacco immerses himself in the daily life of Rafah and the neighboring town of Khan Younis uncovering Gaza past and present As in Palestine his unique visual journalism renders a contested landscape in brilliant meticulous detail Spanning fifty years moving fluidly between one war and the next Footnotes in Gaza transforms a critical conflict of our age into intimate and immediate experience

Multimodal Mediation Through Picturebooks and Graphic Narratives Sandie Mourão, Karen Bennett, 2025-02-27 This collection critically examines the notion of mediation as it manifests itself at the intersection of multimodal literature education and translation studies bringing together perspectives from established and early career scholars The volume seeks to synthesize the fields of education and translation by exploring points of difference and commonality through multimodal communication which has grown increasingly crucial in both fields and how these intersect in picturebooks and graphic narratives including graphic novels illustrated books and other related genres The book begins with considerations on the multimodal as mediator and how multimodal forms mediate their messages for educational contexts Next the exploration of translation as mediation and mediation as translation contemplates the ways in which picturebooks serve as intersemiotic translations of previously verbal texts and as a means of translating abstract concepts into tangible forms Finally there is a showcase of empirical research on the mediation of multimodal literature in diverse education settings from around the world Taken together the collection makes the case for further study of mediation and multimodality as a valuable concept for advancing research in translation and education This book will be of particular interest to students and scholars in multimodality children s literature translation studies and educational research

War Comics Jeanne-Marie Viljoen, 2020-06-15 This book focuses on non fictional visual narratives including comics graphic narratives animated documentaries and online interactive documentaries that attempt to represent violent experiences primarily in the Levant In doing so it explores from a philosophical perspective the problem of representing trauma when language seems inadequate to describe our experiences and how the visual narrative form may help us with this The book uses the concept of the ineffable to expand the notion of representation beyond the confines of a western individualist notion of trauma as event based In so doing it engages a postcolonial perspective of trauma which treats violence as ongoing and connected to several incidents of violence across time and space This book demonstrates how the formal qualities of visual non fiction may help close the gap between representation and experience through the process
