

Macroeconomics Term Paper

This paper requires you to choose a publicly traded company (a company that is traded on the stock market) followed by two cities to determine where you will do business in. You will analyze economic data to make this decision. You can select cities that you would like to either open up stores in, build factories, or relocate the corporate headquarters there. You will begin by providing a brief introduction. Next, you will provide background information about the company you selected (what industry it is in, the mission statement, market share, stock price, etc.). Next you will objectively pick a city you would like to do business in and analyze its economic environment (population density, the labor market (unemployment, education level, etc.), tax rates, etc. Then you will choose another city to analyze and discuss the same economic indicators, which you discussed for the previous city. After you analyzed each city, you will determine, which city you would want to do business in, and why. In order to effectively do this, you will apply the economic theory you used course along with doing research on some of the various economic factors introduced in the course. Lastly, you will provide a brief conclusion.

Paper Requirements: This assignment requires students to write in essay form (introduction, body, and conclusion) using either Chicago Manual Style in-text citation. Students are also required to write in their own words and properly cite their sources. Additionally, this paper requires a minimum of 4 doubled-spaced pages of content in 12 Font Times New Roman using 1 inch margins.

Students are strongly recommended to schedule appointments at the tutoring center located in the library to have their papers evaluated.

Students should also outline their paper by:

1. Introduction (tell me about what you will write about, i.e. the company you selected along with the two cities, and exactly what the company will be doing there)
2. Background information about the company you selected (type of industry, mission statement, vision statement, market size, stock price, etc. are some ideas you may consider.)
3. City #1 (objectively analyze economic factors)
4. City #2 (objectively analyze economic factors)
5. Determine which city you will do business in and why (compare and contrast the advantages and disadvantages of the two cities that you researched)
6. Conclusion (briefly summarize your key takeaways of your analysis)
