Murder, Magic, Madness Davies Owen, 2014-05-22 In 1856 William Dove a young tenant farmer was tried and executed for the poisoning of his wife Harriet The trial might have been a straightforward case of homicide but because Dove became involved with Henry Harrison a Leeds wizard and demonstrated through his actions and words a strong belief in magic and the powers of the devil considerable effort was made to establish whether these beliefs were symptomatic of insanity It seems that Dove murdered his wife to hasten a prediction made by Harrison that he would remarry a more attractive and wealthy woman Dove employed Harrison to perform various acts of magic and also made his own written pact with the devil to improve his personal circumstances The book will study Dove's beliefs and Harrison's activities within the rural and urban communities in which they lived and examine how modern cultures attempted to explain this largely hidden mental world which was so sensationally exposed The Victorian period is often portrayed as an age of great social and educational progress This book

shows how beliefs dismissed by some Victorians as medieval superstitions continued to influence the thoughts and actions of many people viz most famously Conan table tapper Doyle

Murder by Magic Rosemary Edghill,2014-07-02 This anthology features 20 original stories of murder by acclaimed and award winning science fiction and fantasy writers

Folktales of the Jews, Volume 1 Dov Noy,Dan Ben-Amos,Ellen Frankel,2006-09-03 Tales from the Sephardic Dispersion begins the most important collection of Jewish folktales ever published It is the first volume in Folktales of the Jews the five volume series to be released over the next several years in the tradition of Louis Ginzberg s classic Legends of the Jews The 71 tales here and the others in this series have been selected from the Israel Folktale Archives Named in Honor of Dov Noy The University of Haifa IFA a treasure

house of Jewish lore that has remained largely unavailable to the entire world until now. Since the creation of the State of Israel the IFA has collected more than 20,000 tales from newly arrived immigrants, long lost stories shared by their families from around the world. The tales come from the major ethno-linguistic communities of the Jewish world and are representative of a wide variety of subjects and motifs, especially rich in Jewish content and context. Each of the tales is accompanied by in-depth commentary that explains the tale's cultural, historical, and literary background and its similarity to other tales in the IFA collection and extensive scholarly notes. There is also an introduction that describes the Sephardic culture and its folk narrative tradition, a world map of the areas covered, illustrations, biographies of the collectors and narrators, tale type and motif indexes, a subject index, and a comprehensive bibliography. Until the establishment of the IFA we had had only limited access to the wide range of Jewish folk narratives. Even in Israel, the gathering place of the most wide-ranging cross-section of world Jewry, these folktales have remained largely unknown. Many of the communities no longer exist as cohesive societies in their representative lands; the Holocaust, migration, and changes in living styles have made the continuation of these tales impossible. This volume and the others to come will be monuments to a rich but vanishing oral tradition.

Murder by Magic Richard K. Taylor, 1995. **Folk Literature of the Yamana Indians** Johannes Wilbert, 2023-11-15. In my opinion, this project of publications devoted to folk literature of South America is of paramount importance. South American mythology belongs to the spiritual inheritance of mankind, on par with the great masterpieces of Greek and Roman antiquity and of the Near and Far East. At the present time, this material is scattered in numerous publications, most of which are not easy to locate. It would do a great service to scholars all over the world and to the general public to have them collected in a series of volumes. Claude Lévi-Strauss: It is time we had a set of volumes containing good source material for those who wish to study South American indigenous narratives. I am also quite certain that many nonspecialists would be interested in original documents of this kind. Gerardo Reichel Dolmatoff: In my opinion, this project of publications devoted to folk literature
