Five Difference Between Nfsas And Other Loans:

The Next Twenty-five Years David Lee Featherman, Marvin Krislov, Martin Hall, 2009-12-08 A penetrating exploration of affirmative action's continued place in 21st century higher education. The Next Twenty five Years assembles the viewpoints of some of the most influential scholars, educators, university leaders and public officials. Its comparative essays range the political spectrum and debates in two nations to survey the legal, political, social, economic and moral dimensions of affirmative action and its role in helping higher education contribute to a just, equitable and vital society. David L Featherman is Professor of Sociology and Psychology and Founding Director of the Center for Advancing Research and Solutions for Society at the University of Michigan. Martin Hall is Vice Chancellor of the University of Salford, Greater Manchester and previously was Deputy Vice Chancellor at the University of Cape Town. Marvin Krislov is President of Oberlin College and previously was Vice President and General Counsel at the University of Michigan.

Fees Must Fall Susan Booyesen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt. FeesMustFall, the student revolt that began in October 2015, was an uprising against lack of access to and financial exclusion from higher education in South Africa. More broadly, it radically questioned the socio-political dispensation resulting from the 1994 social pact between big business, the ruling elite and the liberation movement. The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left. Yet its objectives are more complex than those of earlier struggles. The student movement has challenged the hierarchical, top-down leadership system of university management and its double-speak of professing to act in workers and students' interests yet entrenching a regressive system for control and governance. University managements, while on one level amenable to change, have also co-opted students into their ranks to create co-responsibility for the highly bureaucratized university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights and meaningful education. In-depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance and offer provocative analyses of the power of the revolt.

ETDP SETA Scarce & Critical Skills Guide 2010/11 , Going to University Case, Jennifer, Marshall, Delia, 2018-02-09 Around the world more young people than ever before are attending university. Student numbers in South Africa have doubled since democracy and for many families higher education is a route to a better future for their children. But alongside the overwhelming demand for higher education, questions about its purposes have intensified. Deliberations about the curriculum, culture and costing of public higher education abound from student activists, academics

parents civil society and policy makers We know from macro research that South African graduates generally have good employment prospects But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses And even less is known about what happens to those who drop out This accessible book brings together the rich life stories of 73 young people six years after they began their university studies It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to engage critically with the world around them The book offers deep insights into the ways in which public higher education is both a private and public good and it provides significant conclusions pertinent to anyone who works in and cares about universities
