Angels** Joad Raymond,2010-02-25 Milton s Paradise Lost the most eloquent most intellectually daring most learned and most
sublime poem in the English language is a poem about angels It is told by and of angels it relies upon their conflicts
communications and miscommunications They are the creatures of Milton s narrative through which he sets the Fall of
humankind against a cosmic background Milton s angels are real beings and the stories he tells about them rely on his
understanding of what they were and how they acted While he was unique in the sublimity of his imaginative rendering of
angels he was not alone in writing about them Several early modern English poets wrote epics that explore the actions of and
grounds of knowledge about angels Angels were intimately linked to theories of representation and theology could be a
creative force Natural philosophers and theologians too found it interesting or necessary to explore angel doctrine Angels did
not disappear in Reformation theology though centuries of Catholic traditions were stripped away Protestants used them in
inventive ways adapting tradition to new doctrines and to shifting perceptions of the world Angels continued to inhabit all
kinds of writing and shape the experience and understanding of the world Milton s Angels The Early Modern Imagination
