**Gender Space Architecture** Jane Rendell, Barbara Penner, Iain Borden, 2000 Covering the intersecting subjects of gender space and architecture this text guides readers through theoretical and multi disciplinary texts to considerations of gender in relation to particular architectural sites projects and ideas Gender Space Architecture Jane Rendell, Barbara Penner, Iain Borden, 2000 The Pursuit of Pleasure Jane Rendell, 2002 The Pursuit of Pleasure presents the figures of the rambler and the cyprian the Eighteenth Century precursors to the Parisian flaneur and prostitute The urban spaces traced by these figures were the clubs sporting venues operas assembly rooms streets and arcades of central London Drawing on critical theory geography and philosophy The Pursuit of Pleasure extends and critiques the discipline of architectural history from a feminist perspective The gendering of public space is considered to be a complex and shifting series of moves and looks between men and women constructed and represented through spatial and social relations of consumption display and exchange Book cover Gender Space Architecture Iain Borden, Barbara Penner, Jane Rendell, 2002-09-11 This significant reader brings together for the first time the most important essays concerning the intersecting subjects of gender space and architecture Carefully structured and with numerous introductory essays it guides the reader through theoretical and multi disciplinary texts to direct considerations of gender in relation to particular architectural sites projects and ideas This collection marks a seminal point in gender and architecture both summarizing core debates and pointing toward new directions and discussions for the future Gender, space, architecture Jane Rendell, Barbara Penner, Iain Borden, 2000

*Gendered Spaces* Daphne Spain, 2000-11-09 In hundreds of businesses secretaries usually women do clerical work in open floor settings while managers usually men work and make decisions behind closed doors According to Daphne Spain this arrangement is but one example of the ways in which physical segregation has reinforced women s inequality In this important new book Spain shows how the physical and symbolic barriers that separate women and men in the office at home and at school block women s access to the socially valued knowledge that enhances status Spain looks at first at how nonindustrial societies have separated or integrated men and women Focusing then on one major advanced industrial society the United States Spain examines changes in spatial arrangements that have taken place since the mid nineteenth century and considers the ways in which women s status is associated with those changes As divisions within the middle class home have diminished for example women have gained the right to vote and control property At colleges and universities the progressive integration of the sexes has given women students greater access to resources and thus more career options In the workplace however the traditional patterns of segregation still predominate Illustrated with floor plans and apt pictures of homes schools and work sites and replete with historical examples *Gendered Spaces* exposes the previously invisible spaces in which daily gender segregation has occurred and still occurs Literature, Gender, Space Sonia Villegas López, Beatriz Domínguez García, 2004 Esta colecci n de ensayos propone una aproximaci n multidisciplinar a los Estudios de

Studies in Architecture Dörte Kuhlmann, 2014-04-11 Analyzing a range of ideas from biological evolutionary and anthropological theories to a variety of feminist psychoanalytic poststructuralist and constructivist discourses this book provides a comprehensive introduction to the problematics of gender and power in architectural and urban design Topics range from conceptions of postulated matriarchal architecture in Old Europe to contemporary technologies of control from the mechanisms of gaze to architectural performatives from the under representation of women in the planning profession to the integration of gender issues to the curriculum The particular strengths of the book lie in its inclusiveness and critical analysis It is not a partisan defence of feminism or any other theory but a critical introduction to the issues relating to gender Moreover the conclusions reach beyond a narrow gender studies perspective to social and ethical considerations that are unavoidable in any responsible architectural or urbanistic practice With its broad range and balanced analysis of different theories the book is suitable as an overview of gender studies in architecture and useful for any designer who is concerned with the social effects of the built environment

**Gender, Space, and Time** Dorothy Moss, 2006-04-13 Drawing on the work of Henri Lefebvre and Barbara Adam *Gender Space and Time* is a brilliant study that offers a unique and original threefold conceptualization of how space and time is developed and applied in an empirical study of women's lives Author Dorothy Moss focuses on the everyday practice and experience of women higher education students at a community college in northern England Women's action is considered in relation to the complex and interconnected spheres of paid work home leisure community and higher education Through highlighting concepts of space and time the complex relationship between networks of power and personal action gains visibility Moss conceptualizes women as centers of action and demonstrates the ways in which they construct personal pathways connect different spheres of experience integrate new time demands into the multiple rhythms of their everyday lives and carve out personal space *Gender Space and Time* is a timely and compelling work certain to be of interest to scholars of sociology women's studies and anthropology
