The Critical Merits of Young Adult Literature Crag Hill, 2014-03-05 This examination of the literary effectiveness of young adult literature from a critical research oriented perspective answers two key questions asked by many teachers and scholars in the field Does young adult literature stand up on its own as literature Is it worthy of

close study The treatment is both conceptual and pragmatic Each chapter discusses a topical text set of YA novels in a conceptual framework how these novels contribute to or deconstruct conventional wisdom about key topics from identity formation to awareness of world issues while also providing a springboard in secondary and college classrooms for critical discussion of these novels Uncovering many of the issues that have been essentially invisible in discussions of YA literature these essays can then guide the design of curriculum through which adolescent readers hone the necessary skills to unpack the ideologies embedded in YA narratives The annotated bibliography provides supplementary articles and books germane to all the issues discussed Closing End Points highlight and reinforce cross cutting themes throughout the book and tie the essays together

Transgender, Translation, Translingual Address Douglas Robinson, 2019-01-24 Finalist for the 2020 Prose Awards Language and Linguistics Category The emergence of transgender communities into the public eye over the past few decades has brought some new understanding but also renewed outbreaks of violent backlash In *Transgender Translation Translingual Address* Douglas Robinson seeks to understand the translational or translingual dialogues between cisgendered and transgendered people Drawing on a wide range of LGBT scholars philosophers sociologists sexologists and literary voices Robinson sets up cis trans dialogues on such issues as being born in the wrong body binary vs anti binary sex gender identities and the nature of transition and transformation Prominent voices in the book include Kate Bornstein C Jacob Hale and Sassafras Lowrey The theory of translation mobilized in the book is not the traditional equivalence based one but Callon and Latour's sociology of translation as speaking for someone else which grounds the study of translation in social pressures to conform to group norms In addition however Robinson translates a series of passages from Finnish trans novels into English and explores the translingual address that emerges when those English translations are put into dialogue with cis and trans scholars

The SAGE Encyclopedia of Trans Studies Abbie E. Goldberg, Genny Beemyn, 2021-02-26 Transgender studies broadly defined has become increasingly prominent as a field of study over the past several decades particularly in the last ten years The experiences and rights of trans people have also increasingly become the subject of news coverage such as the ability of trans people to access restrooms their participation in the military the issuing of driver's licenses that allow a third gender option the growing visibility of nonbinary trans teens the denial of gender affirming health care to trans youth and the media's misgendering of trans actors With more and more trans people being open about their gender identities doctors nurses psychologists social workers counselors educators higher education administrators student affairs personnel and others are increasingly working with trans individuals who are out But many professionals have little formal training or awareness of the life experiences and needs of the trans population This can seriously interfere with open communications between trans people and service providers and can negatively impact trans people's health outcomes and well being as well as interfere with their educational and career success and advancement Having an authoritative academic resource like *The SAGE Encyclopedia of Trans Studies* can go a long way toward correcting misconceptions and providing

Gender Outlaw Kate Bornstein, 2016-11-15 I know I'm not a man and I've come to the conclusion that I'm probably not a woman either. The trouble is we're living in a world that insists we be one or the other. With these words Kate Bornstein ushers readers on a funny fearless and wonderfully scenic journey across the terrains of gender and identity. With a new introduction by the author. On one level *Gender Outlaw* details Bornstein's transformation from heterosexual male to lesbian woman from a one-time IBM salesperson to a playwright and performance artist. But this particular coming-of-age story is also a provocative investigation into our notions of male and female from a self-described nonbinary transfeminine diesel femme dyke who never stops questioning our cultural assumptions. *Gender Outlaw* was decades ahead of its time when it was first published in 1994. Now some twenty odd years later this book stands as both a classic and a still revolutionary work one that continues to push us gently but profoundly to the furthest borders of the gender frontier.

Barbara Leigh Smith Bodichon, 1827-1891 Pam Hirsch, 1999

Barbara Leigh Smith Bodichon was the most unconventional and influential leader of the Victorian women's movement. Enormously talented energetic and original she was a feminist law reformer painter journalist close friend of George Eliot and a cousin of Florence Nightingale. As a painter she is now recognized as a vital figure among Pre-Raphaelite women artists. As a feminist she led four great campaigns for married women's legal status for women's right to work to vote and to be educated. Pamela Hirsch has written a biography that is as lively and powerful as its subject resurrecting this half-forgotten figure and placing her squarely in the context of women's struggle for equality.
