Geography 2014 Final Memorandum Caps:

Wilted Julie Guthman, 2019-08-20 Strawberries are big business in California They are the sixth highest grossing crop in the state which produces 88 percent of the nation s favorite berry Yet the industry is often criticized for its backbreaking labor conditions and dependence on highly toxic soil fumigants used to control fungal pathogens and other soilborne pests In Wilted Julie Guthman tells the story of how the strawberry industry came to rely on soil fumigants and how that reliance reverberated throughout the rest of the fruit s production system The particular conditions of plants soils chemicals climate and laboring bodies that once made strawberry production so lucrative in the Golden State have now changed and become a set of related threats that jeopardize the future of the industry *Handbook on Cohesion Policy in the EU* Simona Piattoni, Laura Polverari, 2016-08-26 This Handbook covers all major aspects of EU Cohesion policy one of the most significant areas of intervention of the European Union Over five parts It discusses this policy s history and governing principles the theoretical approaches from which it can be assessed the inter institutional and multi level dynamics that it tends to elicit its practical implementation and impact on EU member states its interactions with other EU policies and strategies and the cognitive maps and narratives with which it can be associated An absolute must for all students of the EU

The Photographer and the President Richard Lowry, 2015-05-26 A new angle on Lincoln and his legacy exploring the rich and suggestive dialogue between art image and politics at the time of the Civil War Abraham Lincoln was one of the most photographed figures of his century Richard Lowry explores Lincoln s association with Alexander Gardner the man who would create the most memorable and ultimately iconic images of the president both in his studio and on the battlefields of the Civil War Lowry s book is an accessible and lively narrative of this symbiotic relationship and an examination of the emerging role of the media at a moment of national transformation Lincoln was an early adopter of photographic technology and visionary in how he used it as FDR was with radio JFK with television and Obama with the internet By highlighting this very modern aspect of such a storied presidency Lowry opens a new door on Lincoln s relationship to politics and celebrity just as the mass culture of the image was taking root in America EM , 2005
