

Synthesis Essay

Structure

By topic

One paragraph = one sub-topic mentioning each source's perspective on it

I. Sub-topic 1

- a) Source A discussing Sub-topic 1*
- b) Source B discussing Sub-topic 1*

II. Sub-topic 2

- a) Source A discussing Sub-topic 2*
- b) Source B discussing Sub-topic 2*

By source

One paragraph = one source with its points related to all sub-topics you're going to discuss

I. Source A

- a) Source A discussing Sub-topic 1*
- b) Source A discussing Sub-topic 2*

II. Source B

- a) Source B discussing Sub-topic 1*
- b) Source B discussing Sub-topic 2*

Combine

Adapt and modify the other two however you need

I. Sub-topic 1

- a) Source A discussing Sub-topic 1*
- b) Source B discussing Sub-topic 1*

II. Sub-topic 2

- a) Source A discussing Sub-topic 2*
- b) Source B discussing Sub-topic 2*

III. Source C

- a) Source C discussing Sub-topic 1*
- b) Source C discussing Sub-topic 2*

How To Write A Synthesis Paper Step By

How To Write A Synthesis Paper Step By:

Writing for College and Beyond James Rovira, 2019-04-29 Writing for College and Beyond prepares students for their future college classes by covering the strategies common to most college writing. In the process of being prepared for college writing, however, students are also taught chapter by chapter how these writing skills will carry forward into their future professional lives beyond college. One of the least expensive first year writing textbooks on the market, the text isn't inflated with material that most instructors and students won't use, and several exercises encourage students to use either provided web or YouTube links as texts supporting their practice for longer assignments. If you're a first year writing instructor and would like to consider this text for your course, email the author at brightfuturespublishing@gmail.com for a desk copy.

A Step-by-Step Guide to Conducting an Integrative Review Coleen E. Toronto, Ruth Remington, 2020-02-17 This book provides guidance to readers for how to conduct an integrative review. Over the decades with the expansion of evidence-based practice (EBP), the evolution of methods used in reviews has resulted in a wide spectrum of review types. Due to the overlapping characteristics of the various review methods, confusion exists related to terminology, descriptions, and methods of each type. To fill this gap, this book examines components necessary to conduct a rigorous integrative review, from formulating questions through dissemination of the results of the review. Each chapter focuses on one component or step in this process and is written in a straightforward and readable manner. An integrative review is considered by many as an actual research study; hence, it should be approached following established research methods involving well-defined steps. The integrative review is often compared with the systematic review. Both are used in healthcare research and follow a systematic process in reviewing literature and developing recommendations, but there are important differences that are addressed in the book. Evidence-based practice (EBP) demands high-quality, rigorous evidence for nurse clinicians to make informed decisions with and for their patients. In nursing education, the integrative review is a frequent capstone project for graduate students and forms the basis for many doctoral projects. The integrative review process should be valid, reliable, and transparent, and this book provides clear guidelines for writing an integrative review for students, educators, clinicians, and researchers. This book is a useful addition to courses for both undergraduate and graduate-level writers of integrative reviews. In academia, a likely adoption would be in graduate research and research methods courses and baccalaureate honor courses.
