What Is Cool?

No one can truly understand the sensation of jumping directly onto a turtle, but this is just one of many characteristics bestowed upon the main character in the book *Super Plumber Guy*. The book depicts a brightly lit world of wonder, fungi, and amphibians in varying biomes. While the main character, Mr. Plumber, is depicted as an everyman, his distinct look, style, and behaviors as described in the book show that he is anything but.

Mr. Plumber was originally written as something of an everyday character that the reader could embody. He has no true personality, nor does he have a voice, often allowing secondary characters around him to fill in the gaps. The reader does know that he wears a brightly colored hat, jumps high, and enjoys mushrooms. These are humble characteristics that bring out the humanity of the character. Most people are not a list of unique characteristics but a mosaic of smaller idiosyncrasies.

Super Plumber Guy remains a popular read containing a human character that many might consider boring or free of personality. However, Mr. Plumber is an exceedingly human character who acts as a blank slate for the reader. Diving deeper into other characters and their interactions with him may glean further insight into Mr. Plumber's motivations and inner psychology.

MacArthur, Zoi A. Philippakos, 2023-12. This book describes an innovative evidence-based method for preparing students for the demands of college writing called Supporting Strategic Writers (SSW). The goal of SSW is to help students become independent learners who understand the value of strategies and can apply them flexibly in future courses and the workplace. The text provides genre-based strategies for rhetorical analysis, planning, evaluation, and revision; critical reading of sources; and synthesis of sources that are part of college composition and applicable across contexts and course assignments. Equally important to the SSW approach is that students learn metacognitive strategies for goal setting, task management, progress monitoring, and reflection. Instructional methods include discussion of model essays, think aloud modeling of strategies, collaborative writing, peer review, and self-evaluation, and reflective journaling. **Book Features** Integrates three critical components: strategies for critical reading and writing; metacognitive strategies to help students take control of their learning and pedagogical strategies. Provides research-based approaches for teaching developmental writing courses: first-year composition, summer bridge programs, and first-year seminars. Offers thorough explanations of the strategies and instructional methods with practical examples and support materials for instructors. Based on two years of design research and three experimental studies which found significant positive effects on writing quality and motivation with college students in developmental writing courses.
