

QUANTUM 101

This slide represents the first section of your presentation. It is a placeholder for content that you will add later. You can use this space to introduce your topic and provide an overview of the key points you will cover.

In this section, you will explore the fundamental concepts of quantum mechanics. This includes understanding the wave-particle duality of light and matter, the uncertainty principle, and the probabilistic nature of quantum events.

The next section will delve into the applications of quantum mechanics in modern technology. This includes discussing quantum computing, quantum cryptography, and quantum communication. You will see how these technologies are being developed and how they have the potential to revolutionize various industries.

Finally, we will conclude our presentation by discussing the future of quantum mechanics. This includes exploring the latest research and the potential for quantum technologies to solve some of the world's most complex problems.
