Perspectives on Libraries as Institutions of Human Rights and Social Justice Paul T. Jaeger, Ursula Gorham, Natalie Greene Taylor, 2016-03-07 Edited by Ursula Gorham Natalie Greene Taylor and Paul T Jaeger *Perspectives on Libraries as Institutions of Human Rights and Social Justice* is an edited volume from the *Advances in Librarianship* book series devoted to the ideals activities and programs in libraries that protect human rights and promote social justice **South African Foreign Policy Review: Volume 2** Masters, Lesley, Zondi, Siphamandla, 2015-07-13 The first two decades of South Africa s democracy have seen a growing breadth and depth in the analysis of South Africa s foreign policy This second volume of the *South African Foreign Policy Review* considers the continuity and change in South Africa s foreign policy over the course of two decades with a particular focus on the more recent approach under the Zuma administration This includes a closer look at the principles practices and partnerships that shape South Africa s international relations and is aimed at supporting knowledge for reflection on South Africa s conduct internationally and for anticipating ways in which the country may approach international relations and foreign policy going forward It discusses the foreign policy making and the nature of South Africa s diplomatic relations with Africa Asia the Middle East and North Africa Latin America Europe and North America as well as the country s participation in multilateral diplomacy in Africa the global South and at the United Nations UN to expand the discussion and deepen the debate on the future shape and direction of South Africa s foreign policy

Handbook of Research on Special Economic Zones as Regional Development Enablers Figueiredo, Paulo Guilherme, Leandro, Francisco José, Li, Yichao, 2021-10-15 Special economic zones SEZs are important doorways for countries to attract foreign investment and promote trade A strong correlation between the creation of SEZs and economic development indicators has also been identified in previous studies at the municipal level in China Thus the fundamental question that needs to be explored is to what extent SEZs can play the role of development enablers in different regions development states and institutional settings The *Handbook of Research on Special Economic Zones as Regional Development Enablers* discusses the diverse and international track records in the implementation of SEZs the interplay of SEZ models and local institutional infrastructure and stakeholders and the SEZ models that can best fit certain development states and or settings Covering topics such as the Belt and Road Initiative local and national economies and regional integration this book is essential for government officials development officers scholars students researchers entrepreneurs public decision makers aid agencies company executives investors and academicians [Agriculture, Autonomous Development, and Prospects for Industrialization in Africa](#) Emmanuel Ndhlovu, 2025-03-06 The book investigates the intersection of agriculture and development in Africa and how it impacts rural industrialisation prospects It provides a comprehensive view of the position of agriculture in African socio economic activities and the agricultural sector s potential as the source for continental development and industrialisation prospects Significant research has been done on African

development with a focus placed on the problematic role played by slavery colonialism and later by incompetent African leaders who failed to steer development of the type that delivers a progressive sustained and sustainable transformation of lives and societies There is limited focus on the possibility of agriculture being the potential basis of African development and the chance for industrialisation This is a matter of concern considering the dominance of agriculture as a livelihood and income source for many people on the continent In contributing to the debate on development in Africa this book aims to show how agriculture can serve as the basis for African development and industrialisation This will be achieved by i providing a detailed historical description of the position of agriculture in African socio economic activities ii outlining the trajectory of African development with a focus on agriculture innovation and mechanisation iii identifying challenges to the development of African agriculture iv exploring the opportunities for agricultural development in Africa and v providing practical and policy recommendations to improve African agriculture and make it the engine for development and industrialisation Utilising a multidisciplinary approach which combines political economy social policy financial inclusion and empowerment approaches the book also shows how engagement of youth and women digitalisation and the provision of support by public and private actors can jump start agriculture as the engine of African development and industrialisation Taken together with this conscious effort to promote a multi disciplinary discussion the book is valuable reading for students policymakers and activists interested in emerging new directions in African development thinking and research

The Urban Ecologies of Divided Cities Amira Osman, John Nagle, Sabyasachi Tripathi, 2023-06-12 The book discusses how division affect the fabric of cities and people s sense of identity and agency and are reflected in physical features architecture and urban planning The question of divided cities represents a complex and multistranded urban Ecology at once both social and spatial it cannot be limited to a single science or discipline such as social or spatial fields This suggests integrated and cross disciplinary understandings as well as integrated or parallel approaches and solutions Urban ecologies of division manifest in multiple forms One of their most palpable expressions is conflict with parallels around the world and often with correlations in the spatial fabric Violence in such contexts is often a surface expression of deeper socio economic or ideological differences Whether as a result of intervention by authority or by dissent between groups a divided city inevitably becomes a place of conflict in various forms and intensity eroding the joy of living and sense of collective belonging to the detriment of all In effect it erodes the collective advantage of being part of a more unified society A city exists in collections of social structures which mutually form a society A divided city implies divided social structures and in consequence a divided society The papers compiled in this book present many case studies of divided cities discussing the different causes of divisions and their effects on societies Some of the causes can be linked to conflicts wars colonialism or legislative political systems In response to the serious challenges resulting from these divisions the book aims to provide opportunities for new approaches and possibilities for new interventions and solutions making it significant to urban planners architects and policymakers

Why We Kill Karl

Kemp, 2024-03-02 Why do so many South Africans prefer taking the law into their own hands to relying on the police Why are those who do so often cheered or sympathised with Of the unprecedented 27 000 recorded murders in South Africa in 2022 at least 1 894 or 7 per cent were attributed to mob justice and vigilantism more than double the number from five years before In the first nine months of 2023 a further 1 472 mob justice deaths had already been registered Mob justice is nothing new but in recent years it has taken on an undeniably desperate furious edge From the breathtakingly violent Zandspruit massacre in May 2021 to the killings during the July unrest two months later to the march of Operation Dudula across the nation in 2022 vigilantism and the condoning of it has never before captured the zeitgeist of South Africa so sharply What has changed in the past few years and what does it augur for the future Following three recent cases of mob justice from the hellish metropolitan townships of Gauteng to the far flung bushveld of northern Limpopo and drawing on extensive research and interviews Why We Kill explores the roots realities and consequences of South Africa s current crisis of vigilantism
