The Routledge Handbook of Tourism and Hospitality Education
Dianne Dredge,David Airey,Michael J. Gross,2014-10-03 Tourism is much more than an economic sector it is also a social cultural political and environmental force that drives societal change Understanding responding to and managing this change will inevitably require knowledge workers who are able to address a range of problems associated with tourism travel hospitality and the increasingly complex operating environment within which they exist The purpose of this Handbook is to provide an insightful and authoritative account of the various issues that are shaping the higher educational world of tourism hospitality and events education and to highlight the creative inventive and innovative ways that educators are responding to these issues It takes as its central focus a dynamic curriculum space shaped by internal and external factors from global to local scales a variety of values and perspectives contributed by a range of stakeholders and shifting philosophies about education policy pedagogy and teaching practice A benchmark for future curriculum design and development it critically reviews the development of conceptual and theoretical approaches to tourism and hospitality education The Handbook is composed of contributions from specialists in the field is interdisciplinary in coverage and international in scope through its authorship and content Providing a systematic guide to the current state of knowledge on tourism and hospitality education and its future direction this is essential reading for students researchers and academics in Tourism Hospitality Events Recreation and Leisure Studies

Transformation of Agricultural Research Systems in Africa Cyrus G. Ndiritu,John K. Lynam,Adiel N. Mbabu,2004 On no other continent is the need for agricultural research greater than it is in Africa Nowhere are the complexities of producing well adapted agricultural technologies more binding yet the basic institutions supporting agriculture are some of the weakest in the developing world In Africa the challenge of increasing food supply to keep pace with population growth and rising urban demand of producing the agricultural technologies that will fuel that process and of designing the basic institutions that will create and deliver these technologies remains largely unfulfilled Transformation of Agricultural Research Systems in Africa Lessons from Kenya analyzes Kenya s experiences in transforming its Kenya Agricultural Research Institute KARI over time Kenya was chosen because it is the third largest agricultural research system in sub Saharan Africa and it has been reorganized to make it more efficient in serving the needs of small scale farms in national regional and global markets The authors are highly seasoned professionals with years of experience in crafting institutional innovations This case study can be used to draw implications for other research systems in sub Saharan Africa
