Nature of the Sun Sebastiaan van der Meulen, 2026-02-24 Nature of the Sun will teach you a new cosmology model that doesn't require mathematics making it easy to understand This book will also teach you how the human brain works which will allow you to understand people exactly The new cosmology model uses infinities rather than calculations and is so simple it has to be true Reading Nature of the Sun will allow anyone to become a cosmologist You will see how infinities create particles and how they create physics There are some hidden things to cosmology science hasn't understood yet and you could be one of the first to know Even DNA makes use of cosmological infinities which is also explained in the book The brain model will teach you how thinking exactly works There is a trick the brain uses to wire itself up and it is easy to understand once read The brain model also explains your instincts and once read you will understand your own feelings or see why people behave the way they do The brain model which is new to science will teach people to become honest again in a world that doesn't know how to do this respectfully I spend twelve years perfecting the book Nature of the Sun and I wrote eleven books inside for your pleasure to learn how the hidden things of the mind and cosmology work and much more like how personality disorders are caused based on instinctual feelings This book was created fully based on logic so if you like to learn logical explanations of how the brain and cosmology work this book is for you

New Numbers Josie Kearns, 2000 These poems step forth with their eyes closed trust that some soil will support their weight Josie Kearns begins where language leaves off this is not whimsical reinventions but a strong case for extension that flowers from need The poet finds both ease and struggle in the infinite her lines push through their landscapes as if the air will both carry and resist them This understanding of the nature of things makes Kearns poetry so gently balanced so willing to let life maneuver itself through the clutter Her poems have a clairvoyant quality she is one of the messengers between worlds the medium for what until now was nameless
