Mapmatics Paulina Rowińska, 2024-09-17 I love maps I love math And gosh do I love this book which so beautifully and clearly sounds the depths of both Ben Orlin author of Math with Bad Drawings Explore the surprising connections between math and maps and the myriad ways they've shaped our world and us Why are coastlines and borders so difficult to measure How does a UPS driver deliver hundreds of packages in a single day And where do elusive serial killers hide The answers lie in the crucial connection between maps and math In Mapmatics mathematician Paulina Rowińska leads us on a riveting journey around the globe to discover how maps and math are deeply entwined and always have been From a sixteenth century map an indispensable navigation tool that exaggerates the size of northern countries to public transport maps that both guide and confound passengers to congressional maps that can empower or silence whole communities she reveals how maps and math have shaped not only our sense of space but our worldview In her hands we learn how to read maps like a mathematician to extract richer information and just as importantly to question our conclusions by asking what we don't see Written with authority and compassion wit and unforgettable storytelling this is math exposition at its best By unpacking the math behind the maps we depend on Mapmatics illuminates how our world works and ultimately how we can better look after it

How to Lie with Maps Mark Monmonier, 2018-04-13 An updated edition of the humorous informative and perceptive guide to how maps can lead us astray Toronto Globe and Mail An instant classic when first published in 1991 How to Lie with Maps revealed how the choices mapmakers make consciously or unconsciously mean that every map inevitably presents only one of many possible stories about the places it depicts The principles Mark Monmonier outlined back then remain true today despite significant technological changes in the making and use of maps The introduction and spread of digital maps and mapping software however have added new wrinkles to the ever evolving landscape of modern mapmaking Fully updated for the digital age this new edition of How to Lie with Maps examines the myriad ways that technology offers new opportunities for cartographic mischief deception and propaganda While retaining the same brevity range and humor as its predecessors this third edition includes significant updates throughout as well as

new chapters on image maps prohibitive cartography and online maps It also includes an expanded section of color images and an updated list of sources for further reading Praise for previous editions of How to Lie with Maps Will leave you much better defended against cheap atlases shoddy journalism unscrupulous advertisers predatory special interest groups and others who may use or abuse maps at your expense Christian Science Monitor

Modern Trends in Cartography Jan Brus, Alena Vondrakova, Vit Vozenilek, 2014-12-02 The fast exchange of information and knowledge are the essential conditions for successful and effective research and practical applications in cartography For successful research development it is necessary to follow trends not only in this domain but also try to adapt new trends and technologies from other areas Trends in cartography are also quite often topics of many conferences which have the main aim to link research education and application experts in cartography and GIS T into one large platform Such the right place for exchange and sharing of knowledge and skills was also the CARTOCON2014 conference which took place in Olomouc Czech Republic in February 2014 and this book is a compilation of the best and most interesting contributions The book content consists of four parts The first part New approaches in map and atlas making collects studies about innovative ways in map production and atlases compilation Following part of the book Progress in web cartography brings examples and tools for web map presentation The third part Advanced methods in map use includes achievement of eye tracking research and users issues The final part Cartography in practice and research is a clear evidence that cartography and maps played the significant role in many geosciences and in many branches of the society Each individual paper is original and has its place in cartography
