Medical Coding

Essential guidelines & tips to core coding procedures & practices, including: ICD-10-CM, CPT-4 & HCPCS Level II

General Coding & Legal Guidelines

Medical Care + Preventative Care = Health Care

- **Health care** is a comprehensive system that focuses on establishing and maintaining each individual's good health
- **Third-party payer** is the person or organization not involved in the health care relationship except for their obligation to pay for the encounter and services involved
  - Party #1: The health care provider
  - Party #2: The patient
  - Party #3: The insurance carrier (third-party payer)
- **ICD-10-CM** stands for International Classification of Diseases, 10th Revision, Clinical Modification
- **ICD-10-CM** used to code diagnoses
- **ICD-10-PCS** contains codes used to bill for inpatient (hospital) procedures
- **CPT** stands for Current Procedural Terminology; and is used to code procedures
- **HCPCS** stands for Health care Common Procedural Coding System
- **HCPCS Level II** is a book containing codes used to bill for dental procedures, durable medical equipment (DME), drugs, and other services and supplies; codes are used to report services, procedures, and supplies not included in CPT
  - **A**dvanced **L**ife **S**upport (ALS) is a level of service provided by ambulance personnel
  - **DMEPOS**: **D**urable **M**edical **E**quipment, **P**rosthetic, and **O**rthotic **S**upplies
- **Durable Medical Equipment (DME)**: medical supplies that either can be used by several individuals or that last a long time, such as a cane or a wheelchair
- **Outpatient**: an individual provided health care services without an overnight stay in the facility
- **Inpatient**: an individual staying overnight in an acute-care or other health care facility

Legal Guidelines
- **HIPAA**: **H**ealth **I**nsurance **P**ortability and **A**ccountability **A**ct, a federal law

TIP If you don't know, you don't code! Don't assume! Don't guess! Don't suppose!

- **HIPAA's Privacy Rule** is about protecting the patient's privacy; this law simply assures each and every person coming to any health care facility that his/her personal and private information will be protected and treated with respect
- **Coding for coverage** means that a code is changed to fit what the insurance company will pay for rather than accurately reflecting the procedure that was performed
- **Medical necessity (medically necessary)** is the determination that the provider was acting according to standard practices in providing this procedure for an individual with this diagnosis; use of **ICD-10-CM Diagnosis Codes** establishes a medical reason (medical necessity) for providing the services and/or procedures claimed
- **Mutually exclusive codes** report conditions that cannot be in the same patient at the same time
- **Supporting documentation** refers to the paperwork in the patient's file that corroborates the codes presented on the claim form for that particular encounter
- **Unbundling** means that individual parts of a specific procedure were used rather than a combination or bundle that includes all those components
- **Upcoding** means that a code is used on a claim form indicating a higher level of service than was actually performed

Rules of Legal & Ethical Coding
- The codes indicated on the claim form **must represent** the services actually performed, and are supported by the notes and other documentation in the patient's health record
- **Coding for coverage**—using codes not chosen for the best, most accurate code available, but rather, with regard to what procedures the insurance company will pay for (i.e., "cover")—is dishonest and is considered **fraud**
- **Upcoding**—using a code that indicates that a higher level of service was provided than was actually performed—is unethical and **illegal**
- Submitting a claim for services that have already been billed for is called **double billing** and **constitutes fraud**
- **Unbundling**—using individual (also known as

- component) service codes when a comprehensive or combination (bundle) code is available—is **illegal**
- The use of **mutually exclusive codes**—codes identified as not permitted to be used on the same claim form—is considered **unethical**
- **Separating codes** relating to a single encounter and placing them on several claim forms over the course of several days is **not legal or ethical**

Definitions

TIP

6 Steps to Accurate Coding

- **HPSA**: **H**ealth **P**rofessional **S**hortage **A**rea
- **Locum Tenens**: a physician that fills in, temporarily, for another physician

TIP • Use a medical dictionary to ensure you know what the terms mean
• Always check for symbols and notations to guide you to the correct code

CODING TIPS

ABC123	Never code out of the Alphabetical Indexes!
Back Coding	After coding a patient's encounter from the physician's notes, make certain you back code to double-check your work; wait a little while, then go into the ICD-10-CM Tabular List and into the CPT numerical listing, and look up the codes you found earlier; match the descriptions you see to the key words from the physician's notes; this may help you find any errors
CC	Chief Complaint: concise statement about the reason for the encounter
Medical Record Documentation	The records for each patient encounter should include: · Reason for encounter and relevant history, physical exam findings, and prior diagnostic test results · Assessment, clinical impressions, and/or diagnosis · Plan for care · Date and legible identity of observer or provider
Who = The Patient Why = Diagnosis Code(s) What = Procedure Code(s) How = External Cause Codes	· Why did the patient come to see the provider? · What did the provider do in response to the **why**? · How did the injury or poisoning happen? · Where did it happen?
