*Faith Vs. Science* Jerome Goddard, 2012-07-09 This is not a book on theology nor is it a highly technical scientific analysis It s really just a conversation between me and a hypothetical non hostile unbeliever My purpose is to help scientific people see that religion is not just for kooks and to help religious people see that science is not just for atheists Persons skilled in debate will quickly notice that I have utilized a variety of methods to advance my arguments such as logic rhetoric presentation of scientific experimental data and even narrative I realize this mixture of methods is in itself a fault and sometimes appears self contradictory However keep in mind that this book is written in a conversational tone In real life conversations people utilize a variety of methods to make their points That s what I m doing here opening up a reasonable educated conversation about God science and life itself in ways that work best for me
