

The Financial Impact of Optimized Diabetic Foot Care Billing

When South Carolina podiatry practices partner with MBC for specialized diabetic foot care billing optimization, results are substantial. Typical improvements within 90-120 days include 40-50% reduction in diabetic foot care claim denials, 25-30% increase in average reimbursement per diabetic patient visit through proper E/M coding, \$40,000-\$80,000 additional annual revenue from diabetic shoe program optimization, \$24,000-\$57,000 annual recurring revenue from CCM enrollment, and recovery of 30-40% of aged A/R from previously denied claims.

For a South Carolina podiatry practice managing 250 diabetic patients with quarterly visits, optimizing billing increases revenue by \$80,000-\$150,000 annually. Combined with our [Old A/R Recovery Services](#) recovering denied claims, total improvement of \$120,000-\$200,000 within the first year is achievable.

Schedule Your Podiatry RCM Audit Today

Don't let improper diabetic foot care billing drain your South Carolina podiatry practice's revenue. **Medical Billers and Coders** offers comprehensive RCM audits specifically designed for podiatry practices that identify exactly where diabetic foot care revenue is being lost.
