Introduction to Human Services Tricia McClam, Marianne Woodside, 2005 This supplement provides you with opportunities, activities, and exercises to reinforce the important concepts introduced in the textbook. Each chapter in this supplement corresponds to a chapter in *Introduction to Human Services*. Preface **An Introduction to Human Services** Marianne R. Woodside, Tricia McClam, 2019-01-31 AN INTRODUCTION TO HUMAN SERVICES 9th Edition offers a uniquely practical and comprehensive introduction to the human services profession. Drawing on the authors' extensive experience, the text defines human services, reviews the historical development of advocacy, examines service delivery models and processes, and emphasizes the skills needed to succeed as a practitioner. Students gain a solid grounding in serving the whole person using an interdisciplinary approach, interacting with helper and client, preparing generalists, and empowering clients. Detailed case studies highlight the practical applications of key concepts and prepare students to address issues they're likely to encounter. This edition reflects the changing world of human services, the clients that human service professionals serve, and the cultural dimensions of human services and clients. Martin, 2021 The fifth edition of *Introduction to Human Services Through the Eyes of Practice Settings* includes many important updates and additions reflecting the many changes that have occurred in the world since the first edition was written and particularly since 2016. I was motivated to write this book after teaching my very first human services class back in 2002. I didn't know way back then that most professors adopted one or two textbooks and then developed a class based on their content. I developed a course curriculum based on what I knew from having worked in the field for more than a decade. Imagine my surprise when I couldn't find a single book that matched the way I thought the course should be taught. Rather than teaching through the lens of populations (e.g., working with children, working with families, etc.), I believed an introductory course should be taught from the perspective of the practice settings we worked in, which often reflects a range of major social problems within society.
