Congress, 1988 Motor Learning and Performance Richard A. Schmidt, Craig A. Wrisberg, 2000. Dublin born Thomas Southerne has long been admired by scholars as one of the most important dramatists of the Restoration but the lack of a modern edition has prevented his plays from taking their deserved place alongside those of Congreve, Wycherly and Etherege. This two volume collection based on an exhaustive study of the earliest editions brings together his ten plays and the small surviving body of non dramatic writing. Volume Two features two of Southerne's best known tragedies, *The Fatal Marriage* and *Oroonoko* based on stories by Aphra Behn and the variants between the censored and uncensored texts of his political tragedy *The Spartan Dame*. In addition the introduction contains the first biography of Southerne based on a comprehensive study of the surviving documentary records and the editors have incorporated generous notes to clarify the many contemporary allusions and to relate Southerne's work to its sources and models.
