Introduction To Modern Philosophy Examining The Human Condition:

Introduction to Modern Philosophy Alburey Castell, Donald M. Borchert, Arthur Zucker, 2001 For introductory philosophy courses This popular introductory text reader on modern philosophy intersperses primary sources with commentary to keep students interested and critically engaged in what they are reading Each chapter deals with a fundamental question about human existence exploring the subject through representative readings by classic modern and contemporary philosophers with at least two contrasting perspectives for each main position

An Introduction to Modern Philosophy Alburey Castell, Donald M. Borchert, 1976

An Introduction to Modern Philosophy Alburey Castell, Donald M. Borchert, 1988

Embracing Epistemic Humility, Donald Borchert, 2013-06-10 Embracing Epistemic Humility Confronting Triumphalism in Three Abrahamic Religions builds a case that encourages advocates of world views especially the children of Abraham Jews Christians and Muslims to embrace an attitude of epistemic humility toward their world views and thereby defeat the triumphalism which on the contemporary scene has infected the world views of all too many in the Abrahamic tradition Triumphalists see their world view as the ultimate repository of spiritual truth all other world views are inferior and their adherents need to be converted forcefully or silenced or destroyed to prevent their cancerous views from metastasizing Embracing such epistemic humility is not only the antidote to triumphalism but it is also a powerful motivator to transform world view competitors into comrades engaged in a struggle to combat evil and to promote human flourishing

The Future of Reason, Science and Faith J. Andrew Kirk, 2016-12-05 Focusing on the history of ideas this book explores important questions concerning knowledge in relation to philosophy science ethics and Christian faith Kirk contributes to the current debate about the intellectual basis and integrity of Western culture exploring controversial issues concerning the notions of modernity and post modernity Repositioning the Christian faith as a valid dialogue partner with contemporary secular movements in philosophy and ethics Kirk seeks to show that in post Christian Europe the Christian faith still possesses intellectual resources worthy to be reckoned with This book s principal argument is that contemporary Western society faces a cultural crisis It explores what appears to be an historical enigma namely the question of why Western intellectual endeavours in philosophy and science seem to have abandoned the search for a source of knowledge able to draw together disparate pieces of information provided by different disciplines Kirk draws conclusions particularly in the area of ethical decision making from this apparent failure and invites readers to consider Christian theism afresh as a means for the renewal of culture and society
