  - Anatomy & Physiology (AAP)

### Review your results

For topics where you scored well, check those the answer and try some additional questions to ensure that you are getting it right on your own.

For topics where you scored lower, read your answers in their entirety and take them apart. For all of the material that you do not know throughout the month, bring it to your team.

For the other week to fill your study schedule, you should review your diagnostic results. If you score 80% or above on a topic, it is more than likely that you know the material. You can review that material your study plan, otherwise it will be on your study plan.

You can also take topics which you scored lower on the diagnostic to come back to later in the month, so that you have more time to review them.
