link 16 is a tdma based secure jam resistant high speed digital data link which operates in the radio frequency band 960 1  
215 mhz allocated in line with the international telecommunication union itu radio regulations to the aeronautical  
radionavigation service and to the radionavigation satellite service this frequency range limits the exchange of information to  
users within line of sight of one another although with satellite capabilities and ad hoc protocols it is nowadays po
