Elements of any ecological system live in an intricate web of interdependence. When two species of organisms live in close association with each other, their relationship is called "symbiotic." In a symbiotic relationship, at least one of the organisms directly benefits from its close association with the other organism. There are three major forms of symbiotic relationships: commensalism, mutualism, and parasitism.

Define the following terms:

1. Commensalism – _____
2. Mutualism – _____
