## **Love In Between English Edition:**

*Love between Men in English Literature* Paul Hammond,1996-11-12 This is the first book to provide an account of the representation of emotional and sexual relationships between men across English literature from the Renaissance to the modern period Based on new research but aimed at the student and the general reader Paul Hammond discusses major writers such as Marlowe and Shakespeare Tennyson and Wilde Forster and Lawrence but also introduces less familiar texts which cast light on the homosexual culture of their periods There is an extensive bibliography

**Love in Interpretation** Bryant K. Owens,2019-02-28 Dr Bryant K Owens presents the argument of the value of the Christian tradition of caritas or love from the philosophy and the subsequent hermeneutic of Saint Augustine of Hippo 354 430 within contemporary philosophical scholarship Dr Owens s study of Augustine s investigations into biblical interpretation will reveal that he sought the beauty of understanding as evidenced through caritas The shift in the Western philosophical tradition during the Enlightenment period resulted in a solid break from authority based hermeneutics to the autonomy of the mind The result was a greater emphasis on the literal meaning of a text as gleaned from the subjective mind of the reader and through grammatical and historical criticism over the spiritual meaning of the text or application of the greater meaning to Christian living Dr Owens proposes that the benefits of Augustine s caritas as the a priori spirit of the biblical text and the proper application of that spirit in contemporary scholarship should be the epistemological focus of hermeneutics rather than the emphasis on method prevalent from Spinoza to Dilthey The concluding value from Augustine s hermeneutic is that caritas is a product of understanding while at the same time is the method or means by which caritas is produced Therefore Augustine s hermeneutic argues that the sense or spirit of Scripture is caritas and is the truth to which all Christian philosophy must cohere

The interest of the writers of these essays in the intricacies and implications of translation in the Middle Ages or of the translation of medieval texts in the modern period has resulted in a diverse and intellectually stimulating volume. The papers in this volume, written in either English, French, or Spanish, approach translation from a wide variety of perspectives and offer a range of interpretations of the concept of translation. The volume contains essays ranging in time from the Anglo-Saxon period to the present and in topic from medieval recipe books to arguments in favour of women administering the sacrament. Languages studied include non-European languages as well as Latin and numerous European vernaculars as both source and target languages. As any translator or student of translation quickly becomes aware, it is impossible to divorce language from culture. All the contributors to this volume struggle with the complexities of translation as a cultural act, even when the focus would seem to be specifically linguistic. It is these complexities which lend the study of the theory and practice of translation in the Middle Ages its enduring fascination.
